Mid-Year Exceptions

\$15/hr @ FLC during off-peak hours beginning with
Basketball season for St. Michaels Athletic Org.

\$15 per participant for gym usage at FLC for wrestling
program 2008 season

* In 2007 the residency percentages were decided for 2009 to be >90%. The delay in implementing this rate was to give organizations lead time to prepare their team rosters accordingly.

**Proposed 2009 indoor gym space will remain at the same rate, however currently there are organizations that have not been charged for FLC gymnasium use. The Recreation Advisory Board members noted, charging an established appropriate rate for rentals encourages organizations to book only the timeslots they need allowing leftover gym times to be booked by other organizations. A half-price fee for off-peak time slots will be established for those renting the FLC gymnasium facility during earlier, less desirable hours. This will provide a very affordable option for organizations seeking use of the FLC gymnasium.

The noted Mid-Year Exceptions for 2008 were recommended by the Recreation Advisory Board to provide enough lead time to both organizations to plan for the additional expense in 2009.
