Re: Proposal for Engineering Design (Phase II) Services
U.S. Route 45 (LaGrange Road) Segment 3 – 135th Street Water Main relocation

Dear Mr. Ingram,

McDonough Associates (MAI) appreciates the opportunity to work with the Village of Orland Park to design the relocation of the water main on 135th Street. The village water main was identified to be in conflict with the proposed road improvement and this relocation will be included in the plans for LaGrange Road Segment 3 improvement. The existing 135th Street water main is located approximately 41 feet to the right of the centerline of 135th Street. The proposed road improvements include roadway widening and a drainage ditch on the south side of 135th Street, resulting in a grade conflict. The proposed improvement decreases the soil cover for the existing water main and as a result, the Village water main must be relocated. All valve vaults and fire hydrants will be adjusted or relocated to match the proposed improvements, or as indicated by the Village upon review.

The design documents are proposed to be included as part of the IDOT-funded U.S. 45 (LaGrange Road) improvements project. We will coordinate the work with the various agencies having authority over the work. We will provide specifications and summary of quantities and cost following the State format. We will perform our in-house Quality reviews. We will provide up to 5 sets of drawings for Village final approval, and then provide the final documents to IDOT for incorporation into the IDOT Projects. We will make submittals to IEPA and IDNR for permits as needed, and will help the Village to provide any information other jurisdictional agencies may require.

We propose a lump sum fee for these professional services of **\$18,000.00**. Any additional services requested by the Village that would result in a change of Scope will not commence unless given prior authorization. The Village will be invoiced monthly on the basis of percent complete.

These services will commence immediately upon receipt of the Village issued purchase order or written notice to proceed and will be completed in conjunction with the IDOT project schedule. If you have any questions regarding this proposal, please contact the undersigned. Thank you for the opportunity to be of service.

Very truly yours,
McDONOUGH ASSOCIATES INC.
