GUIDELINES ATTACHED TO AND MADE PART OF THE CONTRACT

Building Permit– Most towns and villages require a building permit to be obtained prior to fence installations. Please inquire with your city, town, or village by visiting their website or by calling them directly. We will need your permit number prior to the installation of your fence. Please contact us at **708-479-0414** with your permit number once you have obtained your permit. You are responsible for getting approval from your Homeowner's Association if needed.

Location of Fence– We ask that you instruct our crew as to where exactly you want the fence located. Generally, we will stay within 3 to 6 inches from the property line. In order to determine where your property line is, we require that you provide us with your **Plat of Survey** that accurately locates the boundaries of your property. If your survey is incorrect, K Brothers Fence, Inc. will not be held liable for any costs incurred to move the fence.

Grade of Fence– How far off the ground do you want your fence to be? Do you want your fence to be relatively straight at top or follow the grade of your property? Fence installations that follow the natural contour of the property are strongly recommended for all pet owners. It is the customer's responsibility to confirm with the crew leader the height and grade of the fence **PRIOR** to the posts being set. As a standard practice we will follow the natural contour of your property, unless we are directed otherwise by you **PRIOR** to setting the posts. Changes cannot be made once the cement is in place.

Underground Lines– Utility lines to your property are often underground. Where these lines are buried plays an important role in determining where you can erect your fence without risking damage to the lines or injury to our installers. **We will contact J.U.L.I.E.** to schedule a locator to mark your property. Your fence should be installed at least 18 inches away from locator markings to be in compliance with J.U.L.I.E. requirements and recommendations for safe digging. For more information please visit their website. **IF YOU INSTRUCT OUR INSTALLERS TO INSTALL YOUR FENCE WITHIN 18" OF LOCATOR MARKINGS, YOU ARE ASSUMING RESPONSIBILITY FOR ANY AND ALL DAMAGES THAT MAY OCCUR. THERE WILL BE AN ADDITIONAL \$20.00 CHARGE PER HOLE IF HAND DIGGING IS NECESSARY.**

Non-J.U.L.I.E. Lines– Sprinkler lines, pool lines, drain tiles, private utility lines, septic fields, invisible fence lines, sprinkler heads, etc. that are buried beneath your property are NOT marked by J.U.L.I.E. These items will need to be marked out by the property owner (s) best to their ability. We, in turn, will do our very best to stay away from these lines when digging; however, we cannot assume responsibility for damages if you instruct us to install a fence above them. When using a drilling unit, our fence installers may not even be aware of any such damage and are in no way responsible for notification to the property owner.

Removal of Soil or Existing Fence– Homeowner is to provide a clear fence line (clear of trees, bushes, etc.) prior to installation. Soil will be placed beside each hole when post holes are dug. However, removal of soil and/or existing fencing can be performed at an additional charge to cover labor costs. If you want the soil and/or debris hauled away please let your estimator know so this service is clearly indicated and included on your fence proposal.

Gates– Location, direction, and latch placement should be determined by taking village and town requirements into full consideration, and prior to installation of the gate. We strongly recommend extra care and attention to make sure your gate(s) does not get damaged from slamming or wind. **Typically, most gates are installed approximately 2-3 days after the concrete is set.**

Additional Labor Conditions – Any EXTENSIVE digging due to uncommon ground conditions, ie: bedrock, hardened clay, cement, rocks will incur an additional labor charge of \$50 per hole.

Return Trip Charges - Any customer requested return trips outside the original contracted scope of work, are subject to additional charges.

Warranties– K Brothers Fence honors a 1 year warranty on all new fence installations, and a 1 year warranty on all gates and gate hardware. Warranties on fencing materials are provided directly by the distributors. Wood material may warp, split, or shrink upon drying out. These are natural and unavoidable characteristics of wood itself and are not under warranty. All warranties are respectively honored for customers whose accounts are paid in full.

Cancellations– All orders that are canceled by the customer after 72 hours are subject to a 20% service fee. All service fees are based on the estimate total. All special order items will be subject to a 25% manufacturer's restocking fee and shipping charges. Due to the manufacturer's policy, certain special order items may not be cancelled or returned once ordered, therefore the customer is subject to the policy of the manufacturer.

Proposal price reflects approximate footage during time of initial measurement. Upon job completion the final balance may reflect a credit back to the account or an additional charge based on final measurement by the installation crew. Any changes to your original order may delay your installation and may incur additional expenses.

K Brothers Fence, Inc. puts the safety of our employees first. Installing your fence in a timely manner is a priority; however, scheduled fence installations may be delayed due to extreme weather conditions.

Covid-19 has affected the home improvement industry in several ways.

The closing of manufacturing in early 2020 has caused extended lead times and still continues with several manufacturers. Homeowners are spending more time at home and are investing in their property, which has resulted in an increase in demand for the home improvement industry, and has resulted in shortages of raw materials. Precautions pertaining to the safety and health of our employees and customers is top priority as we continue to experience shortage of top quality fence installers and laborers. Please be assured that we are balancing all of these factors as best as we can and getting out to all of our customers as soon as possible.

PostMaster® Steel Posts

The Strength of Steel and the Beauty of Wood

Will steel posts withstand high winds?

Yes, if properly engineered. Steel posts are available in a wide range of weights (gauges) and strengths. PostMaster® posts are designed to withstand a 70-mph wind load (6' Privacy fence with posts spaced every 8') determined in accordance with the requirements of the 1994 Uniform Building Code for exposure "B". This is the requirement for building departments in many cities. Be sure to check your local requirements and space your posts accordingly.

- A - Cedar (4 x 4) / **49 MPH**
- B - Redwood (4 x 4) / **59 MPH**
- C - Tube (2-3/8 x .065) / **61 MPH**
- D - Pipe (2-3/8, Sch 40) / **68 MPH**
- E - **PostMaster** / **70 MPH**

Will PostMaster rust?

PostMaster's open design keeps moisture from collecting and the heavy galvanized (zinc) coating helps prevent premature rusting. PostMaster is manufactured using a steel base material conforming to the requirements of ASTM A 653, coating designation G90 galvanized (zinc) coating.

Is PostMaster more expensive than wood posts?

Only slightly. Good quality materials, like good workmanship, always cost a little more. While the initial cost of PostMaster may be slightly more than a wood post, and often less expensive than heavy pipe posts with brackets, the cost of future maintenance outweighs the benefits of a lower initial price.

Will a steel post cause any adverse affects to the environment?

No. PostMaster is made from recycled steel. Chemically treated wood fence posts raise concerns about safety and suitability for residential use, and some warranties for chemically treated posts have exclusions for ground contact.

PostMaster® Delivers...

Master Halco's patented PostMaster steel post for wood fencing is engineered to provide you with the strength of steel without sacrificing the natural beauty of wood. Constructed of structural steel with a heavy galvanized coating, PostMaster can withstand high winds and heavy rain and will never rot or warp. Master Halco guarantees it - every PostMaster steel post is backed by a 15-year limited warranty.* PostMaster provides longevity and performance in a wood fence system which results in uncompromised value.

Why use a steel post when I could use wood?

Wood posts rot over time and can warp or twist due to rain, wind or extreme temperatures. The integrity and appearance of a wood fence is lost after the wood posts begin to rot from exposure or termite infestation. This deterioration weakens the post, sometimes to the point where it can no longer hold the fence up. PostMaster gives an ordinary wood fence the strength of steel.

LIFETIME LIMITED WARRANTY

IMPORTANT: This is your warranty certificate. Attach your invoice and proof of warranty.

PROWOOD® LIMITED WARRANTY

Original consumer purchasers or “first owners” of specific ProWood® products are eligible for this LIMITED WARRANTY. Subject to all of the terms and conditions of this warranty, Universal Forest Products (“UFP”) will, in UFP’s sole discretion, replace (product only) or refund the original purchase price of ProWood® products produced by a licensed independently owned and operated treating facility used in, or in conjunction with, residential or agricultural applications that structurally fail in service due to rot, fungal decay, or termite attack during the warranty term.

“FIRST-OWNER” COVERAGE

To qualify for this warranty, you must be the owner-of-record of the property at the time ProWood® products were installed, or if the ProWood® products were installed by a builder-contractor-owner, “first owner” means the owner-of-record first acquiring the property from the builder-contractor-owner. The ProWood® Warranty is not transferable from the first-owner to subsequent owners of the property.

TO IDENTIFY A PROWOOD® PRODUCT, LOOK FOR THE END TAG

It’s easy to identify warranted ProWood® products. Simply look for the end tag on each piece of ProWood® product and examine both sides. Make sure you receive and retain all ProWood® product end tags, as well as the original purchase receipt(s) from your lumber dealer or contractor/builder. In the event of a claim, it will be necessary to present this documentation for all materials claimed.

WHAT THE WARRANTY COVERS

This limited warranty covers only ProWood® products from the date of purchase by the first-owner against “structural failure” caused by fungal decay or termites. For purposes of this warranty, “structural failure” is defined as the inability of a given member to perform its intended function due to rot, fungal decay, or termite attack. The terms “rot” and “fungal decay,” as used in this warranty, mean attack by wood destroying fungi that disintegrate the wood cell walls, but exclude surface mold, mildew, and/or fungi associated with the “weathering” of wood. “Weathering” of wood is not decay, fungal decay, or rot of any type or definition. The obligation of UFP under the terms of this warranty, in UFP’s sole discretion, is limited to replacement or refund up to the original purchase price of ProWood® products.

DEFINITIONS

Ground Contact - Pressure treated wood products are deemed to be used in “Ground Contact” use when used in contact with soil, placed on/over soil using a synthetic barrier or plastic material, or exposed to conditions that could simulate a ground contact exposure, or when used in any other application for which the manufacturer, applicable warranty, or applicable building codes require the use of Ground Contact Products.

Above Ground - Pressure treated wood products are deemed to be in “Above Ground” use when used in an application for which the manufacturer, applicable warranty, and applicable building codes do not require or recommend Ground Contact Products and the application falls outside of the definition of Ground Contact Use.

Ground Contact Products - ProWood® products with an end tag that states “ground contact – general use.”

Above Ground Products - ProWood® products with an end tag that states “above ground use” or “interior use.”

Ground Contact – Critical Use Products - ProWood® products with an end tag that states “ground contact-critical use.”

TERMS OF WARRANTY

Warrantor offers a Lifetime Limited Warranty against rot, fungal decay, and termite damage, as defined herein, for the following products, subject to the specific exclusions set forth in this Warranty:

- Above Ground Products used in Above Ground residential or agricultural applications,
- Ground Contact Products used in Above Ground and Ground Contact applications; and
- Ground Contact – Critical Use Products used in Above Ground and Ground Contact applications.

ABOVE GROUND WARRANTY EXCLUSIONS

This Warranty shall not apply to, and Warrantor hereby expressly disclaims any warranty coverage for Above Ground Products used in Ground Contact applications. Further, Warrantor hereby expressly disclaims any warranty coverage for use of Above Ground Products in any of the following applications for which Ground Contact Products are required:

- Applications which are critical to the performance and safety of the structure and are difficult to maintain, repair, or replace such as joists and beams for decks and fresh water docks;
- With the exclusion of fence pickets, applications which are within six inches of the ground (final grade after landscaping) and supported on permeable building materials such as treated wood or concrete;

LIFETIME LIMITED WARRANTY

IMPORTANT: This is your warranty certificate. Attach your invoice and proof of warranty.

- Applications which are wetted on a frequent or recurrent basis such as a floating dock or an application in contact with a water system;
- Applications which are in direct contact with non-durable wood or any older construction with evidence of decay;
- Applications which are constructed so as not to allow air to circulate underneath the construction and between decking boards;
- Applications which are used in tropical climates;
- Applications where there is a reasonable expectation that soil, vegetation, leaf litter, or other debris may build up and remain in contact with the product.

Important: Check with your state's adopted building code and your local building code authorities to determine if the treated wood product you purchase for your specific application (or location) should be manufactured for "Ground Contact – General Use" or "Ground Contact - Critical Structural."

GENERAL WARRANTY EXCLUSIONS

UFP is not responsible for any damage to products used in commercial or industrial structures, wood foundations systems, wood exposed to salt water, or for damage from any cause other than rot, fungal decay, or termite damage. This warranty does not cover building poles or building timbers in structural applications, commercial vineyard stakes or any products that have been milled after treatment.

UFP is not responsible for any damage to products that are not installed in accordance with all applicable building codes and generally accepted construction practices.

UFP is not responsible for any application of products other than those specified under the appropriate usage as noted on the end tag attached to the piece.

UFP is not responsible for projects or structures containing products that have been used in improper end use applications.

UFP is not responsible for projects or structures where any products treated for above ground use were used in ground contact use applications. The appropriate usage is noted on the end tag attached to the piece.

UFP is not responsible for projects or structures containing ProWood products where some or all of the products have been used in contact with untreated or treated material that has been used in an improper end use application. Example: When above ground treated material has been misused in a ground contact application, this can adversely affect the performance of the entire project, and this situation would expose properly treated material to an exposure condition that would simulate ground contact conditions.

UFP is not responsible for damage to products where the end-cut or trimmed portion of the treated product has been used on contact with the ground.

UFP is not responsible for damage to ProWood® products where the wood has been sawn lengthwise or surfaced. Stair stringers cut from ProWood® products will be allowed only if the following conditions are met (1) ground contact – general use or ground contact – critical structure ProWood® products are used, and (2) an appropriate endcoat wood preservative is applied according to the manufacturer's directions. Pre-cut ProWood® stair stringers should be used whenever possible.

UFP is not responsible for damage to ProWood® products caused by the "weathering" of wood, including but not limited to raised grain, splitting, checking, twisting, warping, shrinkage, swelling, or any other physical property of the wood.

UFP is not responsible for any costs associated with removal of damaged wood product or delivery or installation of replacement ProWood® products.

UFP is not responsible for any incidental or consequential damages claimed to be a result of damaged or undamaged ProWood® products.

UFP is not responsible for corrosion of fasteners, hardware, or any other material, or any damage resulting from such an occurrence.

UFP is not responsible for delamination of plywood or other laminated wood products.

For the warranty to be valid, a brush-on endcoat wood preservative is required at the time of construction on all saw cuts and drill holes for Douglas-fir and Hem-Fir treated wood products. Recommended endcoat wood preservatives include copper naphthenate, oxine copper, or zinc naphthenate products. Important: follow the manufacturer's directions for proper application.

LIFETIME LIMITED WARRANTY

IMPORTANT: This is your warranty certificate. Attach your invoice and proof of warranty.

HOW TO MAKE CLAIMS

To make a claim under the terms of this warranty, send a photograph and description of the damage along with the ProWood® product purchase receipt(s) from your lumber dealer or contractor/builder. In addition, UFP requires an itemized list of the damage to all ProWood® products and an end tag from each piece of damaged treated wood. Send this information to:

Universal Forest Products
Attn: Legal Department
2801 East Beltline NE
Grand Rapids, MI 49525

UFP will, within sixty (60) days from the date of notice of your claim, and upon receipt of the proper documentation, make arrangements to exchange the damaged wood products for the new ProWood® products. UFP reserves the right to have a representative inspect all wood that is claimed to be damaged prior to its removal.

NOTE: THE ONLY OBLIGATION OF UFP UNDER THE TERMS OF THIS WARRANTY IS LIMITED TO REPLACEMENT OF DAMAGED LUMBER OR THE MONETARY EQUIVALENT OF THE FAILED PROWOOD® PRODUCT UP TO THE ORIGINAL PURCHASE PRICE AT THE SOLE DISCRETION OF UFP.

UFP MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR OTHERWISE. IN NO EVENT SHALL UFP BE LIABLE FOR INCIDENTAL, CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES. NOTHING IN THIS WARRANTY SHALL AFFECT THE DURATION OF IMPLIED WARRANTIES BEYOND THEIR CUSTOMARY DURATION, OR CREATE ADDITIONAL IMPLIED WARRANTIES.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so these limitations or exclusions may not apply to you. This warranty gives you specific legal rights and you may also have other rights that vary from state to state. This warranty is valid only in the United States.

Limited Color Warranty

IMPORTANT: This is your warranty certificate. Attach your invoice and proof of warranty.

PROWOOD DURA COLOR®

ELIGIBILITY

The Warrantor is pleased to extend this Limited Color Warranty to you, the original end user of this product. This Warranty may not be assigned or transferred by you. Each piece of warranted product must bear an approved ProWood Dura Color® end tag at time of delivery.

WARRANTY DETAILS

Warrantor will, in Warrantor's sole discretion, replace any ProWood Dura Color product used in a residential or commercial application which exhibits Significant Color Changes within the first two (2) years from the date of purchase on horizontal applications such as decking, benches and steps or within the first five (5) years on vertical applications such as fencing and siding. A designation of: none, two (2) years, or five (5) years will be included on the end tag attached to the product. Products will only be covered for the number of years listed on the end tag.

This Warranty does not cover costs of installation, removal or reinstallation or for the natural characteristic of wood to have raised grain, split, warp, shrink, swell, or twist, or damage caused by physical abuse, acts of God, acts of war, or other chemical or biological factors. Warrantor's sole obligation in Warrantor's sole discretion is limited to replacement of the product and Warrantor shall have no further liability or obligation except as expressly stated herein. Warrantor shall not be liable for any indirect, incidental, punitive, consequential, exemplary or other damages of any kind whatsoever, whether any such claim is based upon theories of contract, warranty, negligence, tort, strict liability or otherwise. The Warranty does not apply to any of the following uses: foundation piles, poles, supports in pole-frame structures, swimming pool sidewalls, tree, vine or plant supports, use in commercial or industrial projects (except that the Two-Year Color Limited Warranty shall apply to commercial applications) or any application involving immersion of the product in water or any items that have been milled after treatment. Discoloration from stains, such as metallic rust and other corrosive compounds are excluded from coverage under this warranty. This warranty excludes any use of ProWood Dura Color products other than as specified under the appropriate usage noted on the end tag attached to each piece of treated wood. This warranty does not cover corrosion of fasteners, hardware, or any other material(s) or any damage resulting from such an occurrence and it excludes any mold growth on ProWood Dura Color products.

Always follow the guidelines stated in the applicable Safe Handling Information when working with or handling this product. Warrantor and its representative(s) reserves the right to investigate any claim and to inspect the materials on which a claim is made prior to its removal.

The term "Significant Color Changes" as used in this warranty shall mean significant changes in the original color of the product that are not due to fading or other changes do to the natural characteristics of the wood itself. The intent of this warranty is to assure the consumer that within the applicable warranty period the ProWood Dura Color color-treated product will not turn a silvery grey, nor lose a substantial amount of color as is the case with certain other wood products. ProWood Dura Color color treated products are resistant to fading but are not impervious to color changes. Natural color variations are to be expected as they evidence the character of a natural wood product. Such natural variations reveal the color variation between different species of wood and the individual characteristics of the board or rail similar to the way heartwood, knots or sapwood will impact the product color.

Significant Color Changes shall not mean attack by wood-destroying fungi that disintegrate the wood cell walls. Color changes associated with surface mold and mildew are not included in the definition of Significant Color Changes and are not covered under this Warranty. Other changes in appearance caused by the natural weathering of wood, including but not limited to, raised grain, splitting, checking, twisting, warping, shrinkage, swelling or any other physical property of wood, are not covered under this warranty.

Some states do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusion of incidental or consequential damages, so the limitation and exclusions contained herein may not apply to you. This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

K BROTHERS FENCE, INC. NO SURPRISES DOCUMENT

GUIDELINES ATTACHED TO AND MADE PART OF THE CONTRACT

Building Permit– Most towns and villages require a building permit to be obtained prior to fence installations. Please inquire with your city, town, or village by visiting their website or by calling them directly. We will need your permit number prior to the installation of your fence. Please contact us at **708-479-0414** with your permit number once you have obtained your permit. You are responsible for getting approval from your Homeowner's Association if needed.

Location of Fence– We ask that you instruct our crew as to where exactly you want the fence located. Generally, we will stay within 3 to 6 inches from the property line. In order to determine where your property line is, we require that you provide us with your **Plat of Survey** that accurately locates the boundaries of your property. If your survey is incorrect, K Brothers Fence, Inc. will not be held liable for any costs incurred to move the fence.

Grade of Fence– How far off the ground do you want your fence to be? Do you want your fence to be relatively straight at top or follow the grade of your property? Fence installations that follow the natural contour of the property are strongly recommended for all pet owners. It is the customer's responsibility to confirm with the crew leader the height and grade of the fence **PRIOR** to the posts being set. As a standard practice we will follow the natural contour of your property, unless we are directed otherwise by you **PRIOR** to setting the posts. Changes cannot be made once the cement is in place.

Underground Lines– Utility lines to your property are often underground. Where these lines are buried plays an important role in determining where you can erect your fence without risking damage to the lines or injury to our installers. **We will contact J.U.L.I.E.** to schedule a locator to mark your property. Your fence should be installed at least 18 inches away from locator markings to be in compliance with J.U.L.I.E. requirements and recommendations for safe digging. For more information please visit their website. **IF YOU INSTRUCT OUR INSTALLERS TO INSTALL YOUR FENCE WITHIN 18" OF LOCATOR MARKINGS, YOU ARE ASSUMING RESPONSIBILITY FOR ANY AND ALL DAMAGES THAT MAY OCCUR. THERE WILL BE AN ADDITIONAL \$20.00 CHARGE PER HOLE IF HAND DIGGING IS NECESSARY.**

Non-J.U.L.I.E. Lines– Sprinkler lines, pool lines, drain tiles, private utility lines, septic fields, invisible fence lines, sprinkler heads, etc. that are buried beneath your property are NOT marked by J.U.L.I.E. These items will need to be marked out by the property owner (s) best to their ability. We, in turn, will do our very best to stay away from these lines when digging; however, we cannot assume responsibility for damages if you instruct us to install a fence above them. When using a drilling unit, our fence installers may not even be aware of any such damage and are in no way responsible for notification to the property owner.

Removal of Soil or Existing Fence– Homeowner is to provide a clear fence line (clear of trees, bushes, etc.) prior to installation. Soil will be placed beside each hole when post holes are dug. However, removal of soil and/or existing fencing can be performed at an additional charge to cover labor costs. If you want the soil and/or debris hauled away please let your estimator know so this service is clearly indicated and included on your fence proposal.

Gates– Location, direction, and latch placement should be determined by taking village and town requirements into full consideration, and prior to installation of the gate. We strongly recommend extra care and attention to make sure your gate(s) does not get damaged from slamming or wind. **Typically, most gates are installed approximately 2-3 days after the concrete is set.**

Additional Labor Conditions – Any EXTENSIVE digging due to uncommon ground conditions, ie: bedrock, hardened clay, cement, rocks will incur an additional labor charge of \$50 per hole.

Return Trip Charges - Any customer requested return trips outside the original contracted scope of work, are subject to additional charges.

Warranties– K Brothers Fence honors a 1 year warranty on all new fence installations, and a 1 year warranty on all gates and gate hardware. Warranties on fencing materials are provided directly by the distributors. Wood material may warp, split, or shrink upon drying out. These are natural and unavoidable characteristics of wood itself and are not under warranty. All warranties are respectively honored for customers whose accounts are paid in full.

Cancellations– All orders that are canceled by the customer after 72 hours are subject to a 20% service fee. All service fees are based on the estimate total. All special order items will be subject to a 25% manufacturer's restocking fee and shipping charges. Due to the manufacturer's policy, certain special order items may not be cancelled or returned once ordered, therefore the customer is subject to the policy of the manufacturer.

Proposal price reflects approximate footage during time of initial measurement. Upon job completion the final balance may reflect a credit back to the account or an additional charge based on final measurement by the installation crew. Any changes to your original order may delay your installation and may incur additional expenses.

K Brothers Fence, Inc. puts the safety of our employees first. Installing your fence in a timely manner is a priority; however, scheduled fence installations may be delayed due to extreme weather conditions.

Covid-19 has affected the home improvement industry in several ways.

The closing of manufacturing in early 2020 has caused extended lead times and still continues with several manufacturers. Homeowners are spending more time at home and are investing in their property, which has resulted in an increase in demand for the home improvement industry, and has resulted in shortages of raw materials. Precautions pertaining to the safety and health of our employees and customers is top priority as we continue to experience shortage of top quality fence installers and laborers. Please be assured that we are balancing all of these factors as best as we can and getting out to all of our customers as soon as possible.
