- Landscape Plan Revisions Letter, Prepared by Terra Engineering, dated July 6, 2017

Review Comments

General Comments:

The petitioner has indicated that there have been minor revisions to the landscape plan to accommodate necessary changes from the civil engineer's plans. The revisions to the plan all appear to be minor and do not interfere with Village ordinance requirements. As requested, the petitioner has provided an Estimate of Probable Costs and updated the Monitoring and Maintenance Plan.

Recommendation

Based on the aforementioned comments and having previously met all ordinance requirements, we recommend acceptance and approval of the landscape plan sheets and supporting documentation at this time.
