A. Section II – Who Is An Insured is amended to include as an additional insured:

1. Any person or organization for whom you are performing operations when you and such person or organization have agreed in writing in a contract or agreement that such person or organization be added as an additional insured on your policy; and

B. With respect to the insurance afforded to these additional insureds, the following additional exclusion applies:

This insurance does not apply to "bodily injury", "property damage" and "personal and advertising injury" arising out of the rendering of, or the failure to render, any professional architectural, engineering or surveying services including:

- a. The preparing, approving, or failing to prepare or approve maps, shop drawings, opinions, reports,

surveys, field orders, change orders or drawings and specifications; or

- b. Supervisory, inspection, architectural or engineering activities.

This exclusion applies even if the claims against any insured allege negligence or other wrongdoing in the supervision, hiring, employment, training or monitoring of others by the insured, if the "occurrence" which caused the "bodily injury" or "property damage", or the offense which caused the "personal and advertising injury", involved the rendering of, or the failure to render, any professional architectural, engineering or surveying services.

C. With respect to the insurance afforded to these additional insureds, the following is added to **Section III – Limits Of Insurance**:

\$10,000 Annual Aggregate	

- a. The each occurrence limit listed above is the most we will pay for all damages because of "property damage" to property in the care, custody and control of or property loaned to an insured as the result of any one "occurrence", regardless of the number of:

- (1) insureds;
- (2) claims made or "suits" brought;

Communication and Scheduling Plan

Water Services utilizes multiple channels to allow residents to engage our Call Center staff for the purposes of scheduling individual installation appointments. We typically send out a series of three appointment request letters to each resident requesting they call our Call Center using a dedicated 1-800 hotline phone number for the Orland Park project. Our staff of five takes incoming calls to schedule appointments and answers general project questions the residents might have. Additionally, we offer an online appointment scheduling program where residents use the web site scheduling address and individual customer PIN number listed on their letter to schedule their own installation appointment. This allows the residents two ways to make their appointment based upon their preferred method of scheduling. Our letters typically follow a prescribed format that might vary slightly from one project to the next but has been very effective on previous projects. The content of our letters are reviewed and approved upon consultation with the Village project team and will contain Village of Orland Park logos to make them appear as if they were mailed from Village Hall. Our staff handles all of the mailing process and we pay for the cost of paper and postage for the letters. Typically, once we have mailed three letters to residents we then turn over a list of non-compliant water customers to the Village for further assistance in compelling them to call us to schedule an appointment. If the Village has phone numbers for individual water customers our staff is ready and willing to make outgoing calls to non-compliant homes in an effort to get them scheduled. We try to make every effort to get the residents to schedule an appointment without the Village needing to resort to shutting off water for non-compliance if at all possible. Our experience has shown that going the extra mile in making the scheduling process as easy and painless as possible for the residents makes life easier for the Village, its project staff and elected officials and helps to cast the project in a positive light.

Our enclosed projected schedule of installation shows in detail how we plan to perform the project and the timeframe for completing each major task along the way. We feel that the project can be completed within 24 months from signing the contract with the Village. This level of production is realistic and attainable and approximates the type of production we achieved in our recent projects in Park Ridge and Glendale Heights. Our experience in performing this work for numerous other local clients leads us to believe that if Water Services is awarded the project there should not be a problem completing the work within the Village's prescribed 24 month time horizon.

Water Services Call Center Staff Description

Water Services Company employs three full-time and two additional part-time call center staff members, who have logged a combined total of over 23 years of service with the company. These ladies are well-trained and highly experienced in call center operations, as well as in performing other administrative functions necessary to professionally manage a project of the size and scope of Orland Park's upcoming water meter replacement project. These call center professionals have already managed the mailing of over 50,000 appointment request letters and fielded well over 30,000 phone calls in order to set up installation appointments for Water Services' recent AMI system projects in the Village of Glendale Heights, the Village of Bridgeview, the Village of Streamwood and the City of Park Ridge.

The staff members are:

Joanna Gattuso – Water Services Company Office/Call Center Manager

Joanna has been employed by Water Services Company for over 15 years since 2007. During this time, she has excelled in her call center role in meter replacement projects for the Village of Schaumburg, Village of Lombard, City of Highland Park, and others including our recent projects in Bridgeview, Park Ridge, Streamwood and Glendale Heights. She was promoted to the company's Office and Call Center Manager more than three years ago based upon her level of experience, industry knowledge, attitude and enthusiasm to help others. She has also previously managed schedule coordination for Water Services Company's RPZ testing business. In this role, she has helped coordinate the scheduling of over 2,500-3,000 RPZ tests annually, scheduling multiple testing crews throughout the State of Illinois for large corporate customers like Walgreens, Sears Holdings, Central DuPage Hospital and many others. She is adept at providing outstanding customer service and would excel in a lead call center role for the upcoming project in the Village of Orland Park.

Jessica Verzillo – Water Services Company Call Center Specialist

Jessica has been employed by Water Services Company for 4 years. She has extensive customer service experience from previous employment and has done very well in injecting herself right into the fray with our recent projects in Bridgeview, Park Ridge, Glendale Heights and Streamwood. Sabrina has been employed by Water Services Company for 8 years. She has extensive customer service experience and has excelled in our recent projects in Bridgeview, Park Ridge, Glendale Heights and Streamwood. She works extensively with Joanna, Jessica and our company's part-time call center team members Loredana and Marianna to quickly get up to speed with our industry and the various software programs we utilize on a daily basis. She would do a solid job in her call center role if Water Services was to be awarded the project in Orland Park.

Project Logistics

Water Services has extensive experience in performing turnkey water meter replacement programs for numerous area municipalities. Our company's primary focus and business function is to partner with municipal clients to perform this kind of work. We are thoroughly experienced, highly trained and very enthused about the opportunity to provide this kind of service to the Village of Orland Park.

We would work with the Village's project management staff and our own internal staff as part of our combined project management team. This team would participate in regular project management meetings to discuss project details, tasks and issues and plan out the major tasks needing to be completed prior to the start of new water meter installations taking place. These discussions would include provisions for our Call Center and customer contact procedures and data transfers for installation data back to the Village. Our project management function would oversee all of these activities as well as the daily management and oversight of water meter installations once that portion of the project begins.
