Subject:

Concrete removal - 143rd & LaGrange Rd, Orland Park, IL

Comments:

Melissa

We are pleased to provide a quotation for the removal of existing concrete floor and foundations associated with the former shell oil gas station (video store) B&B will provide and equipment and labor necessary to complete said work.

For the sum of \$ 5,100.00

Note: all work is to be completed while on site for other excavation activities. If work needs to be completed at a different time there will be an additional charge of \$ 2,200.00

Canopy Piers: canopy piers from old shell canopy are included in this cost up to a reasonable size of 6'H x 6'W x 6'D. If piers are substantially larger and require a hydraulic hammer or 2nd machine to remove them from the ground there will be an additional \$ 2,500.00 charge.

All work will be coordinated by and through GES on site tech.

B&B will adhere to all GES Safety protocol and all on site workers will be LPS trained.

Thank you

Dave Carlson
President
