Re: Olde Mill Natural Area Maintenance

Dear Mike,

Thank you for contacting Davey Resource Group, Inc., "DRG" to provide you with this proposal to complete the scope of services listed below at the Olde Mill Natural Area in Orland Park, IL. This proposal is inclusive of all labor, material, and equipment required to perform native plant maintenance tasks.

Scope of Work

2024 Base Scope: Proposal includes two (2) stewardship visits throughout the 2024 growing season, one in July and one in September.

Alternate 1: Includes cost of seed material and broadcast installation

Alternate 2: Includes cost of seed material and broadcast installation

All work shall be completed by December 1, 2024.

Alternate 3: Includes cost of seed material, soil prep, and broadcast installation

Alternate 4: Includes cost of seed material, soil prep, and broadcast installation

Alternate 5: Proposal includes two (2) stewardship visits throughout the 2024 growing season, one in July and one in September. Cost of seed and installation included. Assumed work will be performed along with the base scope

- Stewardship/Management of Native Landscapes:

Visits for stewardship will be made throughout the growing season to control weeds within the BMP basin/native landscape. Control methods will include hand cutting, pulling, selective mowing, and herbicide application as appropriate. Stewardship efforts will focus on particular weed problems as they arise throughout the season and will be directed by the recommendations of the field supervisor.

All work is done under the general supervision of a field supervisor. Our field staff is uniformed and supervised by working foreman. All vehicles and equipment are marked with the company logo. This allows you the assurance of easy identification of our equipment and personnel.

This proposal can be implemented by either issuing a purchase order, or by signing the Authorization to Proceed below and returning to our office. Please feel free to only choose the line items for the work you would like DRG to perform at this time.

If you have any questions or wish to arrange for a meeting to discuss this scope of work and more specifically the treatment methods and areas, please call me at 630.559.2035. Thank you for allowing DRG the opportunity to work with you.

Sincerely,

Village of Orland Park
2024 Olde Mill Natural Area Maintenance – Scope of Work
5/9/2024

Project Location

Between Millers Way and Deer Trail Court, East of 108th Avenue

Figure 1. Project location

Background

The Village of Orland Park recently completed the following public access improvements at Doctor Marsh.

- Two naturalized detention basins
- Riparian vegetation improvements
- Mesic prairie buffer establishment

Other existing site features include the following.

- Creek channel
- Asphalt path

Scope of Work

The Village of Orland Park desires to retain a Contractor to complete additional site work associated with ecological restoration and management, enhancing public health/safety/welfare, and enhancing the visitor experience. The following BASE services, and ALTERNATE services as budget allows, are desired. Please also refer to attached Plan.

BASE Services

- Remove and control the presence of invasive species on site, including invasive forbs, grasses and woody species. Treatment of invasive species will include both mechanical and chemical intervention, and will target invasive species including, but not limited to, common reed, reed canary grass, sweet clover and teasel.

ALTERNATE Services

1. Overseeding approximately 1 acre of riparian area.
 - a. Broadcast overseeding into existing vegetation. Seeding of native material shall include installation of a native seed mix containing a non-allelopathic cover crop, not less than 5 pounds per acre of a minimum of three perennial native grasses, and not less than 1.5 pounds per acre of a minimum of 7 perennial native forbs, with a preference for showier pollinator-friendly species (e.g., lobelia, arrow arum, wild bergamot, marsh milkweed, New England Aster, etc.). Post installation management to control weeds and encourage growth of desirable species will be required. Final seed mix shall be subject to review and approval of the Village.
2. Overseeding approximately 1 acre of mesic prairie buffer area
 - a. Broadcast overseeding into existing vegetation. Seeding of native material shall include installation of a native seed mix containing a non-allelopathic cover crop, not less than 5 pounds per acre of a minimum of three perennial native grasses, and not less than 1.5 pounds per acre of a minimum of 7 perennial native forbs, with a preference for showier pollinator-friendly species (e.g., yellow coneflower, purple coneflower, wild bergamot, milkweed, showy tick-trefoil, New England Aster, etc.). Post installation management to control weeds and encourage growth of desirable species will be required. Final seed mix shall be subject to review and approval of the Village.
3. Reseeding approximately 1 acre of riparian area where previous seeding attempts have not been successful or have failed.
 - a. Light soil preparation (i.e. tilling) shall be performed prior to seeding. Seeding of native material shall include installation of a native seed mix containing a non-allelopathic cover crop, not less than 10 pounds per acre of a minimum of three perennial native grasses, and not less than three pounds per acre of a minimum of 7 perennial native forbs, with a preference for showier pollinator-friendly species (e.g., lobelia, arrow arum, wild bergamot, marsh milkweed, New England Aster, etc.). Post installation management to control weeds and encourage growth of desirable species will be required. Final seed mix shall be subject to review and approval of the Village. Erosion control measures shall be placed wherever erosion may be an issue.

4. Reseeding approximately 1 acre of mesic prairie buffer area.
 - a. Light soil preparation (i.e. tilling) shall be performed prior to seeding. Seeding of native material shall include installation of a native seed mix containing a non-allelopathic cover crop, not less than 10 pounds per acre of a minimum of three perennial native grasses, and not less than three pounds per acre of a minimum of 7 perennial native forbs, with a preference for showier pollinator-friendly species (e.g., yellow coneflower, purple coneflower, wild bergamot, milkweed, showy tick-trefoil, New England Aster, etc.). Post installation management to control weeds and encourage growth of desirable species will be required. Final seed mix shall be subject to review and approval of the Village. Erosion control measures shall be placed wherever erosion may be an issue.
5. Managing the 108th Avenue embankment area and invasive species control, selective clearing, and native seeding.
 - a. Invasive species control shall focus on control of invasive herbaceous weeds including, but not limited to, common reed, reed canary grass, sweet clover and teasel through herbicide application and cutting.
 - b. Selective clearing shall consist of cutting non-native woody species including but not limited to buckthorn, honeysuckle, and autumn olive; cutting aggressive weedy native woody species including but not limited to buckthorn, honeysuckle; application of herbicide to cut stumps; removal and disposal of cut brush; follow-up cutting and/or herbicide application to address resprouts and new growth after initial cutting.
 - c. Native seeding shall include soil preparation (e.g., light tilling and/or fine grading as necessary); installation of a native seed mix containing a non-allelopathic cover crop, not less than 10 pounds per acre of a minimum of three perennial native grasses, and not less than three pounds per acre of a minimum of 7 perennial native forbs, with a preference for showier pollinator-friendly species (e.g., yellow coneflower, purple coneflower, wild bergamot, milkweed, showy tick-trefoil, New England Aster, etc.); erosion control (e.g., straw erosion control blanket, crimped straw mulch, or hydromulch) on disturbed bare soils (may not be necessary if no-till seeding is utilized); and post installation management to control weeds and encourage growth of desirable species. Final seed mix shall be subject to review and approval of the Village.
