

Police Cruise Lights

What Are Police Cruise Lights?

- Steady, non-flashing red and blue LED lights
- Constant illumination for visibility
- Lower intensity than emergency strobes
- Used during routine patrols
- No driver action required

Cruise Lights vs. Emergency Lights

Emergency Lights (Flashing):

- High-intensity, rapid strobes
- Indicate active emergency response
- Drivers must yield or pull over

Cruise Lights (Steady):

- Constant illumination
- Moderate intensity
- Indicate patrol presence
- Drivers continue normal driving

Why Use Cruise Lights?

Crime Deterrence

- Increased visibility and safety perception
- Reduce Crime

Community Engagement

- Supports positive interactions and reassurance
- Boost Public Awareness
