If required by written contract, this insurance will be primary and non-contributory to insurance on which the additional insured is a Named Insured.

b. Any covered "auto" hired or rented by your "employee" without a driver, under a contract in that individual "employee's" name, with your permission, while performing duties related to the conduct of your business.

c. The most we will pay for any one "accident" or "loss" is the actual cash value, cost of repair, cost of replacement or $75,000, whichever is less, minus a $500 deductible for each covered auto. No deductible applies to "loss" caused by fire or lightning.

d. The physical damage coverage as is provided by this provision is equal to the physical damage coverage(s) provided on your owned "autos."

e. Such physical damage coverage for hired "autos" will:

(2) Such coverage as is provided by this provision will be subject to a limit of $750 per "accident."

E. Airbag Coverage

d. The most we will pay for "loss" to a covered "auto" in any one accident is the lesser of:

(1) $5,000; or

(2) 20% of the "auto's" actual cash value (ACV).

The following is added to **Sections II and III**:

1. Any "auto" you don't own, hire or borrow is a covered "auto" for Liability Coverage while being used by, and for Physical Damage Coverage while in the care, custody or control of, any of your "executive officers," except:

a. An "auto" owned by that "executive officer" or a member of that person's household; or

b. An "auto" used by that "executive officer" while working in a business of selling, servicing, repairing or parking "autos."

Such Liability and/or Physical Damage Coverage as is afforded by this provision.

(1) Equal to the greatest of those coverages afforded any covered "auto"; and

Copyright, CNA Corporation, 2000.

(2) Excess over any other collectible insurance.

2. For purposes of this provision, "executive officer" means a person holding any of the officer positions created by your charter, constitution, by-laws or any other similar governing document, and, while a resident of the same household, includes that person's spouse.

IV. BUSINESS AUTO CONDITIONS

A. Duties In The Event Of Accident, Claim, Suit Or Loss

The following is added to **Section IV, Paragraph A.2.a.**:

(4) Your "employees" may know of an "accident" or "loss." This will not mean that you have such knowledge, unless such "accident" or "loss" is known to you or if you are not an individual, to any of your executive officers or partners or your insurance manager.

The following is added to **Section IV, Paragraph A.2.b.**:

(6) Your "employees" may know of documents received concerning a claim or "suit." This will not mean that you have such knowledge, unless receipt of such documents is known to you or if you are not an individual, to any of your executive officers or partners or your insurance manager.

B. Transfer Of Rights Of Recovery Against Others To Us

The following is added to **Section IV, Paragraph A.5. Transfer Of Rights Of Recovery Against Others To Us:**

We waive any right of recovery we may have, because of payments we make for injury or damage, against any person or organization for whom or which you are required by written contract or agreement to obtain this waiver from us.

This injury or damage must arise out of your activities under a contract with that person or organization.

You must agree to that requirement prior to an "accident" or "loss."

C. Concealment, Misrepresentation or Fraud

The following is added to **Section IV, Paragraph B.2.:**

Your failure to disclose all hazards existing on the date of inception of this Coverage Form shall not prejudice you with respect to the coverage afforded provided such failure or omission is not intentional.

The following is added to **Section IV, Paragraph B.5.:**

Regardless of the provisions of Paragraphs **5.a.** and **5.d.** above, the coverage provided by this policy shall be on a primary non-contributory basis. This provision is applicable only when required by a written contract. That written contract must have been entered into prior to "Accident" or "Loss."

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about AGAE Contractors, Inc. and Subsidiaries' ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but it is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing our audits in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of AGAE Contractors, Inc. and Subsidiaries' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about AGAE Contractors, Inc. and Subsidiaries' ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control related matters that we identified during the audits.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary information included in the schedule of contracts in progress is presented for the purpose of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

AGAE CONTRACTORS, INC. AND SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2022 AND 2021

NOTE 1--NATURE OF OPERATIONS AND ACCOUNTING POLICIES

Business Activity

This summary of significant accounting policies of AGAE Contractors, Inc. and Subsidiaries (Company) is presented to assist in understanding the Company's consolidated financial statements. The consolidated financial statements and notes are representations of the Company's management who are responsible for their integrity and objectivity. These accounting policies conform to U.S. generally accepted accounting principles and have been consistently applied in the preparation of the consolidated financial statements.

The Company, located in Elk Grove Village, Illinois, is engaged as a general contractor, primarily for commercial and industrial construction properties in the Chicago metropolitan area. The majority of the company's work is subcontracted out to unionized subcontractors. The major accounting policies followed by the Company are as follows:

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its 95% owned subsidiaries, AGAE-Pro-Fence J.V., AGAE-A1 Roofing J.V., LLC, AGAE-Jade J.V., LLC, AGAE-Mundo Electric J.V., LLC, AGAE-Airport Electric J.V. LLC, AGAE-Blackhawk HVAC J.V., LLC and AGAE-Grove Masonry J.V., LLC. All subsidiaries were formed between 2016 and 2021, respectfully as joint ventures with other construction firms. Based on the terms of the joint venture agreements, AGAE Contractors, Inc. controls all the partnerships and has consolidated all seven joint ventures as subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

Operating Cycle

The length of the Company's contracts varies but is typically less than one year. Assets and liabilities related to long-term contracts are included in current assets and current liabilities in the accompanying balance sheets, as they will be liquidated in the normal course of contract completion. However, this may require more than one year.

Revenue and Cost Recognition

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers* (ASC 606). The rules establish a core principle requiring the recognition of revenue to depict the transfer of promised goods or services to customers in an amount reflecting the consideration to which the entity expects to be entitled in exchange for such goods or services. Prior to the amendment, contract revenue was recognized on the percentage-of-completion method, which is measured by the percentage of costs incurred to date to estimated total costs for each contract. The new rule requires an entity to (1) identify the contract, (2) identify the performance obligations in the contract, (3) determine the transaction price, (4) allocate the transaction price to the performance obligations, and (5) recognize revenue over time as each performance obligation is completed. The Company adopted ASC 606 as of January 1, 2019. In recalculating costs and revenue under ASC 606 guidance, no material difference was identified in the account balances.

The Company recognizes revenue on construction contracts over time, as performance obligations are satisfied, due to the continuous transfer of control to the customer. The customer typically controls the contracts-in-process, as evidenced either by contractual termination clauses or by rights to payment for work performed to date plus a reasonable profit to deliver products or services that do not have alternative use to the Company. The Company's construction contracts are generally accounted for as a single performance obligation since the Company is providing a significant service of integrating components into a single project. The Company recognizes revenue using a cost-based input method, which uses actual costs incurred relative to the total estimated contract costs to determine, as a percentage, progress toward contract completion. This percentage is applied to the transaction price to determine the amount of revenue to recognize. Costs incurred that do not contribute to satisfying performance obligations are excluded from the cost input calculation as these amounts are not reflective of transferring control to the customer. The Company believes the cost-based method is the most faithful depiction of performance because it directly measures the value of the services transferred to the customer.

NOTE 1--NATURE OF OPERATIONS AND ACCOUNTING POLICIES (CONTINUED)

Revenue and Cost Recognition (continued)

If based on a lack of reliable information, progress cannot be reasonably measured, then recognition of revenues (but not costs) is deferred until progress can be reliably measured. If, however, it is expected that total costs will be recovered, the Company will recognize revenues equal to costs incurred until the Company can reliably measure progress.

Revenues on uninstalled materials are recognized when control is transferred to the customer, which does not necessarily equate to when the cost is incurred. Under limited circumstances, revenue on certain uninstalled third-party materials is recognized when the cost is incurred; however, profit is not recognized at that time.

Use of Estimates

The preparation of the consolidated financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those results.

Contract Receivables

The Company extends trade credit to its customers. The receivables are valued at management's estimate of the amount that will ultimately be collected. The Company determines an allowance for doubtful accounts based on a review of outstanding receivables, historical collection information, and existing economic conditions. Management believes that contract receivables at December 31, 2022, are fully collectible; therefore, no allowance for bad debt has been established.

Contract Balances

Contract assets include unbilled amounts that typically result from revenue under long-term contracts when the percentage of completion method of revenue recognition is utilized and revenue recognition exceeds the amount billed to the customer. Contract liabilities are costs of billing in excess of revenue recognized.

Significant Judgements

The Company recognizes revenues from construction contracts using the percentage-of-completion method, which is measured by the percentage of cost incurred to date to management's estimated total cost for each contract. That method is used because management considers the total cost to be the best available measure of progress on the contracts. At December 31, 2022, management estimated the remaining costs to complete the contracts-in-progress at that date. These estimates were used in calculating the contract assets and contract liabilities. Because of the inherent uncertainties in estimating costs, it is at least reasonably possible that the estimates used will change within the near term.

Property and Equipment

Property and equipment are recorded at cost, less accumulated depreciation. Depreciation is provided on the straight-line method for financial reporting and accelerated methods for income tax reporting purposes over the estimated useful lives which range from five to ten years. Maintenance, repairs, and minor replacements, which neither materially add to the value of the property nor appreciably prolong its life, are charged to an expense account when incurred. Gains or losses on the disposition of property and equipment are included in other income or expenses.

Income Taxes

The Company, with the consent of its shareholder, has been elected under the Internal Revenue Code to be an S Corporation. In lieu of corporate income taxes, the shareholders of an S Corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal income taxes has been included in these consolidated financial statements. However, the Company may be responsible for certain state taxes which are recognized as incurred.

NOTE 1--NATURE OF OPERATIONS AND ACCOUNTING POLICIES (CONTINUED)

Bad Debt Expense

The Company writes off bad debts using the reserve method of accounting. Accounts receivable is reported net of the allowance for doubtful accounts, which is a percentage of accounts receivable historically uncollectible.

Collateral

The Company grants credit to its customers; however, the Company does not require collateral for this credit.

Common Control Leasing Arrangement

The Company has adopted the accounting alternative offered to private companies in FASB ASC 810-10 for certain leasing arrangements with entities under common control. In accordance with this alternative, the Company does not evaluate entities that meet the requirements in the variable interest subsections of FASB ASC 810-10. Instead, the Company discloses the leasing arrangement as required by the accounting alternative. See Note 10.

Recent Accounting Pronouncement

On February 25, 2016, the FASB issued ASU Update 2016-02, *Leases* (Topic 842), which requires lessees to recognize an asset and a liability associated with the right to use a given asset and obligations to make payments pursuant to the terms of the lease. This standard was effective as of January 1, 2021.

NOTE 9--COMMITMENTS AND CONTINGENCIES

The Company is contingently liable to a surety insurance company under a general indemnity agreement. The Company agrees to indemnify the surety for any payments made on contracts of surety guarantee. The Company believes that all contingent liabilities will be satisfied by its performance on the specific bonded contracts involved.

NOTE 10--LEASES

The leases provide for the payment of real estate taxes, insurance, and maintenance expense. Rent expense totaled $0 (2022) and $110,000 (2021).

The related party lessors have no debt and management is not aware of any circumstances that would expose the Company to providing any financial support to the related party lessors.

NOTE 11--FAIR VALUE OF FINANCIAL INSTRUMENTS

Substantially all of the Company's current assets and liabilities are considered financial instruments. The carrying amounts of financial instruments, including cash, accounts receivable, accounts payable, and accrued expenses approximate fair value due to the short maturity of these instruments.

The employees may elect to defer amounts according to the maximum allowed under Federal guidelines. The plan expenses totaled $172,941 (2022) and $65,365 (2021).

NOTE 13--PAYCHECK PROTECTION PROGRAM

In May 2020, the Company received loan proceeds in the amount of $374,900 under the Paycheck Protection Program ("PPP"). The PPP established as part of the Coronavirus Aid, Relief and Economic Security Act ("CARES Act"), provides loans to qualifying businesses for amounts up to 2.5 times the average monthly payroll expenses of the qualifying business. The loans and accrued interest are forgivable if the borrower uses the loan proceeds for eligible purposes, including payroll, benefits, rent, and utilities, and maintains its payroll levels.

The unforgiven portion of the PPP loan is payable over two years at an interest rate of 1%, with a deferral of payments for the first six months. The Company intends to use the entire loan amount for qualifying expenses. Under the terms of the PPP, certain amounts of the loan may be forgiven if they are used for qualifying expenses as described in the CARES Act.
