Immediately**

**Stay Compliant**

# Collaboration

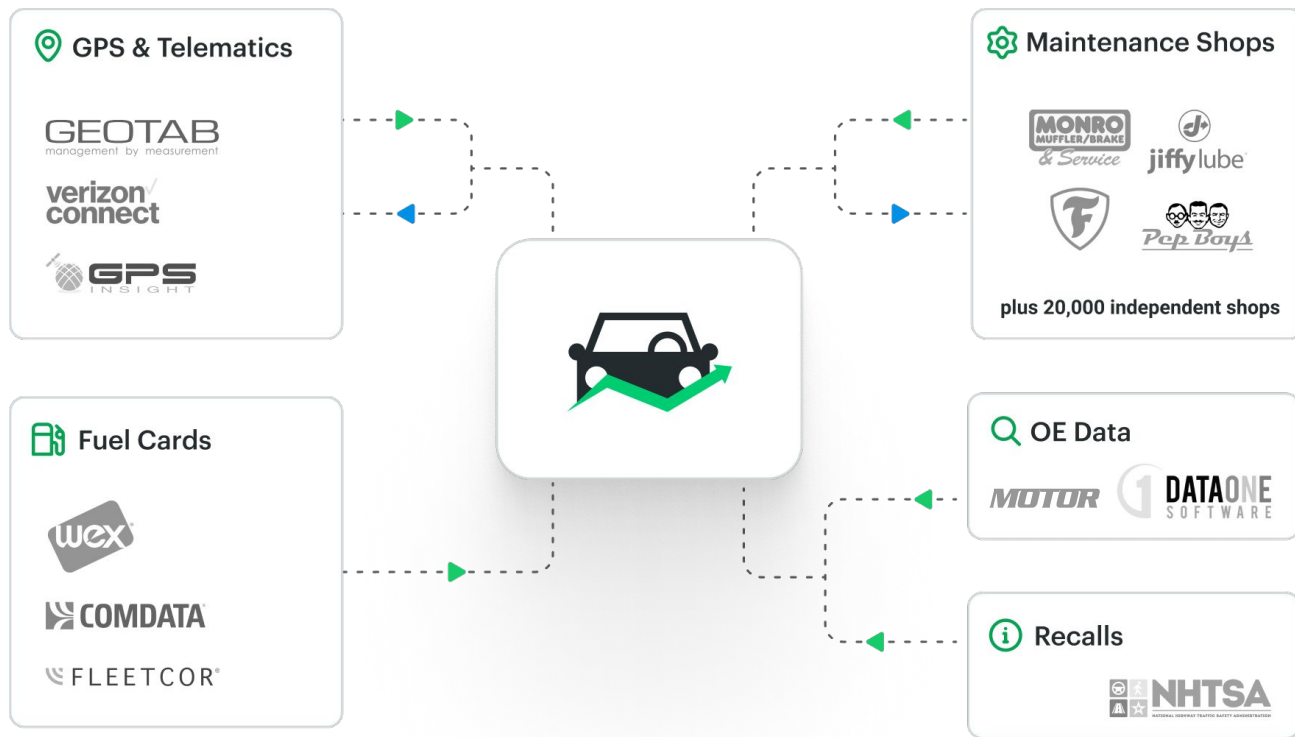

The screenshot displays the Fleetio web interface on a desktop and a mobile app on a smartphone. The desktop interface includes a sidebar with navigation options: Dashboard, Vehicle, Inspection, Issues, Reminders, Service, Contacts, Vendors, Parts & Repairs, Fuel, Places, Documents, Reports, and Integrations. The main content area shows a 'Home' screen with a 'Receive Real-Time Alerts' toggle (ENABLED), a 'Recent Vehicles' list (2012 GMC Sierra, F-2, Delivery Vehicle - GR01), and 'Suggested Inspections' (2015 Ford F-150 Pre-Trip Inspection, 2012 GMC Sierra Post-Trip Inspection). The mobile app interface shows a 'Home' screen with a 'Receive Real-Time Alerts' toggle (ENABLED), a 'Recent Vehicles' list (2012 GMC Sierra, F-2, Delivery Vehicle - GR01), and 'Suggested Inspections' (2015 Ford F-150 Pre-Trip Inspection, 2012 GMC Sierra Post-Trip Inspection). The right sidebar shows a 'Notifications' section with 4 new notifications, including vehicle status changes, vehicle assignments, comments, work orders, and expense entries.

**Notifications** 4 new Mark All as Read

- Adam Dutton changed a vehicle status **Tesla Cybertruck** Texas EVs  
Pre-Ordered → Active Now
- James Matthews assigned a vehicle to you **Tesla Cybertruck** Texas EVs 2m
- Ruby McDonald commented on a vehicle **Tesla Cybertruck** Texas EVs 15m  
Wow! What a cool truck. I can't wait to get my hands behind the wheel!! It has bulletproof and bomb-proof glass, right? That's so... [See more](#)
- Diamond Wellington commented on a part **Anco Aerovantage 21** San Diego 59m  
[@adam](#) I don't think we have these in stock
- Ben Cerveza added a new work order **Work Order #229** T-4464 1h  
Unwatch Work Order
- Monica Xiao added a new expense entry **Loan Payment - Jul 4, 2020** T-4464 4h  
\$300.00 (The total may be different, waiting for the loan statement)

# Automation

## DVIR Workflow

Driver inspects vehicle and records findings in mobile app or web browser.

Results appear in Fleetio and the fleet manager schedules repairs.

Vehicle repairs are completed and recorded against the original inspections report.

The driver confirms the issue is resolved in their next inspection.

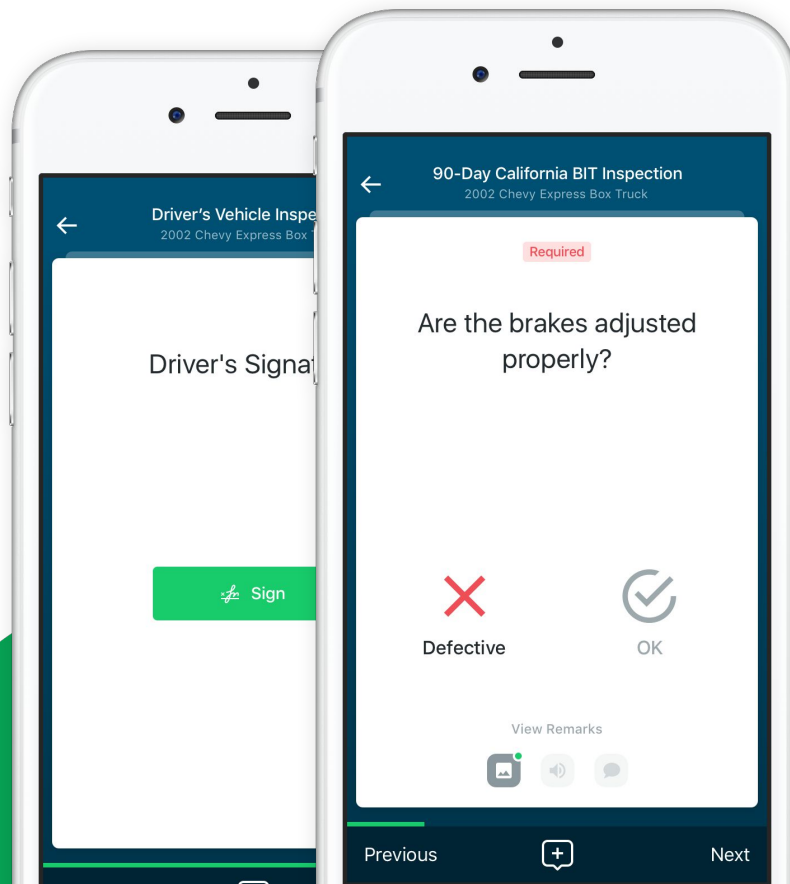

The vehicle is road-ready with a fully compliant inspections report.

# Electronic Vehicle Inspections

1. Administrators create custom inspection forms
2. Drivers complete inspections using a mobile device
3. Failures are instantly reported along with photos & comments
4. Issues are addressed immediately and fleet operations are safer and more productive

# Accident Reporting

Document Accidents consistently and get notified immediately

## Avoid stockouts with low inventory alerts

Always know how much you have in stock, track how much you've used, and receive notifications when it's time to reorder, well before the last second.

## Reduce unnecessary costs through rightsizing

Rightsize your inventory with clear cost insights and actionable data, as well as record order history and compare vendor prices, so that you're never spending more than is necessary on parts.

## Increase efficiency and optimize space

Integrate digital tracking to know exactly where all of your inventory is – down to the aisle, row and bin – and stay organized to streamline maintenance workflows and manage bulk operations.

# Reporting

## View operational costs in real-time

View operating cost data for your assets to help optimize allocation and financial forecasting. Fleetio makes it easy to see the overhead it takes to keep specific vehicles, groups or your entire fleet on the road.

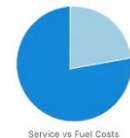

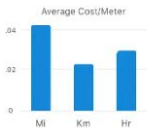

- Vehicle operating costs (fuel and service)
- Total fleet operating cost by month
- Cost per mile (km or hour) trends

### Operating Cost Report

Total Cost  
\$37,333.11

Fuel Cost  
\$29,352.14

Service Cost  
\$7,980.97

### Usage Report

| MIN VALUE | MIN DATE   | MAX VALUE  | MAX DATE | USAGE     | AVG/DAY |
|-----------|------------|------------|----------|-----------|---------|
| 56,527 mi | 08/26/2017 | 149,204 mi | 10/28/17 | 92,877 mi | 89.9 mi |
| 25,001 mi | 01/22/2017 | 115,926 mi | 10/29/17 | 90,925 mi |         |
| 35,413 mi | 01/26/2017 | 125,735 mi | 10/31/17 | 90,322 mi |         |
| 81,582 mi | 08/26/2017 | 170,094 mi | 10/31/17 | 88,703 mi | 76.2 mi |

| 46,183 mi | 08/26/2017 | 133,395 mi | 11/01/17 | 87,211 mi | 75.1 mi |

## Track how your vehicles and equipment are being used

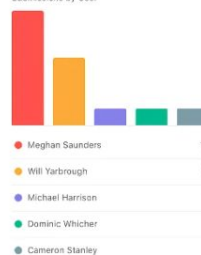

Keep tabs on utilization for each and every vehicle so you can adjust on the fly and make the most of your vehicles and equipment.

- Average mileage per day (utilization) by vehicle or group
- Vehicle assignment history across operators and vehicles
- History of status changes (in-shop, out-of-service, etc.)
- Audit trail of changes to all asset records (service, parts, issues, etc.)

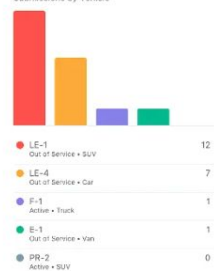

### Inspections Submission Report

#### Submissions by Vehicle

## Ensure your fleet is safe and compliant

Find out who's completing required inspections, ensure in-service vehicles are being inspected regularly and spot common defects across your fleet.

- All inspections completed and by whom
- View all reported defects, identify trends

# Equipment Management

- Centralize all fleets assets
- Improve tracking & accountability of equipment
- Maintain control of your equipment from anywhere

The screenshot displays the Hoofi Dynamic Equipment Management interface. The left sidebar contains navigation links: Dashboard, Vehicles, Equipment (highlighted with a 'NEW' badge), Inspections, Issues, Reminders, Service, Fuel, Contacts & Users, Parts & Inventory, Places, Reports, and Integrations. The main content area shows the details for a specific piece of equipment, MAG-02, a Stihl Blower. The 'Details' section includes fields for Name, Status, Linked Vehicle (TRA-01 [2012 Diamond Ca...]), Group (Management), Name (MAG-02), Type (Blower), Serial Number (85203892195566), Year (2018), Brand / Make (Stihl), Model, Ownership (Owned), and Warranty Type (Extended). The 'Check In / Out' section shows a list of users who have checked in or out of the equipment, including Kim Gordon, Mark McMahon, and Penelope Smith, with their respective check-in and check-out times. The 'Last Known Location' section shows a map of the area around Ruid Hills, with a marker indicating the location of the equipment.
