Title/Name/Summary

Traffic Signal Maintenance for Village/ State/County Roadways Renewal

History

As part of the Village's intergovernmental agreements with the State of Illinois (State) and Cook County (County), the Village is responsible for shared costs of traffic signal maintenance on State and County roadways. The Village's cost is determined by the jurisdictional percentage of the intersecting streets. For instance, on 151st Street at LaGrange Road, the Village pays for 50% of the cost of maintenance due to 151st Street east and west being owned by the Village. The County utilizes the same formula for maintenance costs on shared jurisdiction roadways.

Additionally, the Public Works Department contracts out the maintenance for thirteen

(13) village-owned traffic control signal systems. The Village has traditionally utilized the same contractor to perform maintenance that is selected through the bid process by the State and the County.

Meade Electric of McCook, IL (Meade) has performed this work for the State, County and Village for many years, and they again have the contract for 2023.

Meade has submitted the attached service agreement extension for 2023, with a 4.7% rate increase, for a rate of \$185.32 per intersection each month for the Village. It should be noted that the rate had not been increased since 2020, and is well below the current CPI of 8.8%.

Staff recommends renewing the contract for 2023. The service agreement provides the same timeframe and similar level of maintenance service that Meade provides under the State and County agreements. The cost of repairs due to damage or failure is above and beyond the scope of this proposal and is determined on a case by case basis.

Financial Impact

Upon approval of the 2023 Fiscal Year Budget, sufficient funds will be allocated in account 1008020-443700 for the maintenance and repair of traffic signals.

Recommended Action/Motion

I move to approve the 2023 expenditures to the State of Illinois for traffic signal maintenance on shared State roadways;

AND

To approve the 2023 expenditures to the Cook County Highway Department for traffic signal maintenance on shared County roadways;

AND

To waive the bid process for village traffic signal maintenance service;

AND

To approve the proposal from Meade Electric Company, Inc. of McCook, Illinois, for traffic signal maintenance for the thirteen (13) village owned traffic signals at a cost not to exceed the Board approved budgeted amount for 2023.
