Re: Technical Proposal for RFP # 24-018 Franklin Loebe Center (FLC) Fire Loop Water Main Installation

#### To Whom It May Concern:

Thank you for your consideration of our submission in response to your RFP for the above referenced project. In addition to submitting the required forms in Section III of the RFP, H. Linden & Sons offers the following response to the Technical Proposal section:

Experience: Under the experience section, to augment our list of references on that specific form:

- 1. Village of Mount Prospect Levee 37 Aspen Trails Park Interior Drainage Improvement Project: 2023 APWA Suburban Branch Project of the Year Environment (\$5M to \$25M) Award: We installed a Contech Storm Trap System consisting of five hundred 80" x 20' Contech culvert pipes; eight hundred feet of Class A, Type 2, 60" Storm Sewer; and six hundred and fifty feet of Class A, Type 2, 15" Storm Sewer along with all accompanying structures, connections, services, and appurtenances while relocating all utility conflicts and retiring appropriate structures and pipes as necessary to build a storm catching system under an existing park. Was instrumental in achieving project schedule goals by suggesting an alternative design for structures with unacceptably long lead times. Sean P. Dorsey: 847-870-5640
- 2. Village of Woodstock Lake-South-Madison Roundabout: **2024 APWA Fox Valley Branch Project of the Year Transportation (Less than \$5M) Award:** We realigned and installed all utilities along with all accompanying structures, connections, services, and appurtenances while relocating all utility conflicts and retiring appropriate structures and pipes as necessary to oversee the transition from a multi road intersection to a roundabout before final restoration. Chris Tiedt: 815-338-4300
- 3. Village of Monee Wilson Street Area Water Main Improvements: We installed nearly three thousand linear feet of ductile iron watermain of various sizes by directionally boring, augering, and open excavation method along with all accompanying structures, connections, services, and appurtenances while relocating all utility conflicts and retiring appropriate structures and pipes as necessary before final restoration. Geoff Aggen: 815-464-2664
- 4. Village of Alsip 115<sup>th</sup> & 118<sup>th</sup> Place Water Main Improvements: We installed over four thousand linear feet of ductile iron watermain of six- and eight-inch Polyvinyl Chloride watermain by directionally boring and open excavation method along with all accompanying structures,

connections, services, and appurtenances while relocating all utility conflicts and retiring appropriate structures and pipes as necessary before final restoration. Greg Kamplain: 815-412-2016

Operating History: We are a family owned and operated business serving the greater Chicagoland area since 1977 with an IDOT Certificate of Eligibility limit of \$42M of which work on hand is estimated at \$1.5M presently. We have over \$3M in current assets with no debt on the books. We maintain a \$600K line of credit with our bank with a zero balance to be able to access cash if ever needed to cover project expenses ahead of project payments. We have the financial means of meeting contractual requirements, a redundancy in construction equipment to be able to readily mobilize to a job site and not lose time due to breakdowns, and the qualified, experienced personnel to assign to this project.

#### Qualifications:

- 1. Owner/Officers: Each of H. Linden's projects are steered by three officers with over thirty years of civil water and sewer experience each. Please review attached resumes.
- 2. Operations: Further, we will assign our Chief Operator, Tim Smith, as the head of operations for this project. Tim joined the Linden team seven years ago with thirty years of equipment operating experience and twenty years in leadership roles as foreman and owner/operator. Tim's experience with Linden includes key man roles on **all** the projects listed in the Experience section above.
- 3. Laborers: We will assign Ryan Walsh as Crew Foreman for this project. Ryan has spent nearly all of his twenty-two years as a laborer with the Lindens in the capacity of crew foreman for the last ten of those years. Ryan will directly communicate and coordinate with the project owner, resident engineer, all inspectors, and our vendors. He is responsible for all final as built drawings. Ryan's experience with Linden includes key man roles on **all** the projects listed in the Experience section above.

Sincerely,

Steve Linden, Secretary/Treasure
