Re

Request for Proposal
Phase III Engineering for
Construction Management
2024 Annual Neighborhood
Road Improvement Program

Dear Ms. Heslin:

We received the Request for Proposals dated February 1, 2024 to provide Phase III Engineering for Construction Management for the 2024 Annual Neighborhood Road Improvement Program. Thank you for the invitation to submit.

We would like to express our sincere appreciation for this opportunity to work with the Village of Orland Park. As you may be aware, Civiltech has recently had great fortune and been selected on many projects which will occupy our large Construction Engineering staff during the 2024 season. We did attempt to combine this great project and fit the staff onto it from one of our nearby resurfacing programs. Despite our efforts, we could not make plausible staff switches from one project to the next. For this reason, we will not be able to submit for this program.

We know that there will be a perfect project fit for both the Village and Civiltech in the future. Hopefully, this can happen sooner rather than later. Of course project schedules can change, and we will certainly be available again potentially at any time. We hope you will keep us in mind for upcoming projects. We very much look forward for the chance to help the Village with your significant improvements.

Thank you again for considering Civiltech Engineering for this submittal. As much as we hate to turn away potential work, we feel this is the best course of action at this time.

Very truly yours,

James D. Ewers, P.E.
