ABOUT THE SPC

The Suburban Purchasing Cooperative is a joint purchasing program sponsored by the Northwest Municipal Conference (NWMC), DuPage Mayors & Managers Conference (DMMC), South Suburban Mayors and Managers Association (SSMMA), and Will County Governmental League (WCGL). Together the SPC represents 142 municipalities and townships in northeastern Illinois.

All public agencies as defined by the Illinois Governmental Joint Purchasing Act, as well as not-for-profit agencies that qualify under Section 45-35 of the Illinois Procurement Code, are eligible to participate in SPC joint purchasing programs.

ILL COMP. STAT. ANN §220/2. Definitions for the purpose of this Act: The term "public agency" shall mean any unit of local government as defined in the Illinois constitution of 1970, any school district, any public community college district, any public building commission, the State of Illinois, any agency of the State government or of the United States, or of any other State, any political subdivision of another State, and any combination of the above pursuant to an intergovernmental agreement which includes provisions for a governing body of the agency created by the agreement.

The SPC exemplifies the benefits of intergovernmental cooperation on a regional basis. The goal of the SPC is to combine the resources and purchasing power of governments and not-for-profit entities to jointly negotiate advantageous contract terms on a line of high quality products at the lowest possible price.

Economies of scale in terms of pricing and staff resources are the prime objectives of the SPC Joint Purchasing Program. By purchasing through the SPC, participants not only save money but time as well. Acting as an extension of the purchaser's staff, SPC staff works diligently in order to avoid the needless duplication of effort through in-house coordination of several functions involved in the procurement process.

Illinois statutes, 525/2 from Ch. 85, par. 1602. (Governmental Joint Purchasing Act), authorizes that any governmental unit may purchase personal property, supplies and services jointly with one or more other governmental units. All such joint purchases shall be by competitive solicitation as provided in Section 4 of this Act.

Since 2007, the SPC Program is centrally operated by the Northwest Municipal Conference with shared program oversight by the SPC Governing Board and SPC Technical Review Committee.

Due to General Motors' production schedule, the SPC was able to extend the Chevy Tahoe Contract (#185) through the end of their 2020 model year with no price increase. Currie Motors gave us a factory order cut-off date of September 23, 2019, however, General Motors will not begin production on their new 2021 model year vehicles until summer of 2020. Therefore, Currie Motors has agreed to stock 50 2020 Tahoe units (in black or white only) that may be purchased on the SPC contract with no price increases until those units have been depleted. Currie Motors anticipates selling 30-40 stocked units on the SPC contract.

AUTO PARTS PROGRAMS

The Suburban Purchasing Cooperative (SPC) Governing Board is pleased to announce the approval of contract extensions on two popular programs to supply vehicle/truck parts and manage fleet inventory operations. The contract extensions piggyback onto programs offered by the Sourcewell (formerly NJPA), a Staples, Minnesota based national municipal contracting agency and run from February 8, 2019 through February 7, 2021. Sourcewell was created by Minnesota law as an Educational Cooperative Service Unit (Independent School District #924) to serve education and government entities with solutions, as outlined in [Minn. Stat. 123A.21](#), which are more efficiently delivered cooperatively than by an entity individually. As a service cooperative, Sourcewell is a [governmental unit of the State of Minnesota](#), all Sourcewell employees are government employees.

- Achieve a significant reduction in administrative procedures
- Reduce transactional costs through centralized billing across multiple vendors
- Deliver increases in on-demand parts availability
- Drive increases in fleet technician performance
- Reduce vehicle downtime in fleet operations
- Eliminate obsolete parts and shrinkage costs through efficient parts room management technologies
- Significantly reduce the cost of parts and warehouse inventory ownership
