Village of Orland Park
Office of the Village Clerk
2nd Floor
14700 S. Ravinia Ave.
Orland Park, IL 60462

submitted via BidNet Direct March 19, 2021

Ms. Merced:

Thank you for the opportunity to respond to the Village's Request for Proposals (RFP) No. 21-019 for Recodification Services, Publication and Supplemental Services for the Municipal Code and Land Development Code of the Village of Orland Park, Illinois. We understand that the Village is seeking the services of an experienced codifier to analyze the current Municipal Code and Land Development Code, together with any uncodified legislation, in order to create a new Municipal Code and new Land Development Code that are complete, current, free of internal conflicts and inconsistencies, in conformity with the laws of the State of Illinois and readily accessible to staff and citizens.

With over 70 years of experience, Municode is the oldest and most trusted codifier in the nation. We currently provide codification services to over 4,000 municipalities throughout the United States (including over 200 clients in Illinois) and host over 3,700 municipal codes online. Our website, MunicodeNEXT is the only code platform to offer features such as CodeBank, CodeBank Compare, eNotify, OrdLink, OrdBank, MuniDocs and MuniPro as a smooth and integrated user experience for local governments and their citizens.

In addition to codification services, we provide a "circle of governance" that offers website design, meetings management and document archival tools in one seamless experience. Customers who trust Municode with their online codes, meetings software, and municipal website enjoy a unified search engine and integration of the Meetings, Web, and Code Hosting platforms. From the Meetings platform, agendas and minutes can automatically be uploaded to the website and ordinances can be sent to Municode for codification with permanent links created within the code for the ordinances and the specific meeting from which the legislation was adopted, via our OrdBank service.

This proposal outlines the scope of services and costs for the recodification of the Village's Municipal Code and Land Development Code. We've also provided the pricing and scope of services for continuing to maintain the new Codes via supplement services and online hosting via MunicodeNEXT and encourage you to visit our corporate website to review our full suite of services: https://www.municode.com/

If you have any questions or need additional information regarding our proposal, please contact National Legal Sales Director James Bonneville (<u>JBonneville@municode.com</u>, 651-262-6262). It would be our pleasure to be of service to the **Village of Orland Park!**

Sincerely,

Re: Municipal Code Corporation

To whom it may concern:

I am pleased to provide an unqualified reference for Municipal Code Corporation, based upon their financial stability, longevity of operations (70 years), the character and depth of their management team and their proven operating expertise & ability to adapt over time to the changing technological environment.

As noted above, the company has been based in Tallahassee for seventy (70) years and Hancock Whitney Bank is extremely pleased to be associated with them. The company maintains a significant depository relationship in the very high seven (7) to low eight (8) figures and also an outstanding credit relationship in the mid seven (7) figures, both of which have been maintained in full accordance with all banking agreements. To that end, Hancock Whitney is poised to expand both our depository and credit relationship as Municipal Code Corporation needs warrant. Quite simply the strength of Municipal Code that is reflected in their extremely strong financial statements makes all of the above feasible.

Municipal Code's board is composed of preeminent Tallahassee business leaders and works in concert with Municipal Code's management to develop company associates capabilities while seeking to consistently expand and round out the products & services Municipal Code provides to its more than four thousand (4,000) municipality clients across the country. On behalf of Hancock Whitney, I am very pleased to serve as a reference for Municipal Code Corporation.

SCOPE OF SERVICES - RECODIFICATION SERVICES

Scope of Services Summary

We have reviewed the Village's RFP, including the sample contract, Terms and Conditions, Scope of Services, Insurance Requirements and the Addendum (Q and A Document 1) as published on Bidnet Direct. We have provided a sample Certificate of Insurance for the Village's review as *Attachment C*. If fortunate enough to be awarded the Village's RFP, we may request that the Village consider minor industry-specific revisions to the sample contract provided in the RFP. We are excited about the possibility of working with the Village of Orland Park and confident that Municode can meet and exceed your expectations for the recodification and future maintenance of both Codes!

During the recodification process, an experienced Municode codification attorney will review, analyze and recodify the existing Municipal Code and Land Development Code of the Village of Orland Park in order to create a well-organized, legally sound and professionally edited Code of Ordinances/Land Development Code that is free of internal conflicts and inconsistencies; free of errors in spelling and grammar; formatted in a manner that allows for continued growth and expansion; in conformity with the laws of the State of Illinois and readily accessible to staff and citizens alike. The two Codes will be considered separate publications, both in print and online. We have reviewed the RFP's Scope of Services and can comply with all requirements with the minor exceptions or deviations listed below:

Item 1a. Legal Research and Analysis

Although recodification services include a complete review of the Codes against state law, a review of legislation against federal law is not provided.

Item 1b. Legal Research and Analysis

Rather than deliver a draft Code simultaneously with the Legal Review Memorandum, the draft Code is typically delivered following the Legal Review Memorandum conference, after all revisions to the Code have been agreed upon by the Village.

Item 1e. Legal Research and Analysis

Regarding attendance at public hearings involving approval of Code language or Zoning regulations, this is not a service we provide, but rather is considered an internal process for our clients.

Item 1f. Legal Research and Analysis

We will provide recommendations to resolve inconsistencies, conflicts or obsolete provisions. Our MuniPRO feature allows you to search over 3,700 online Codes in the Municode library, save frequently used or complex searches, create notes to attach to any publication and draft new ordinances

Item 5. Code Delivery, Recordkeeping and Supplemental Distribution

We are happy to add/stamp serial numbers to each code binder ordered, however printed supplements will not have the corresponding serial numbers included. We will provide and ship the total number of supplements requested, but we do not individually package these supplements for interdepartmental distribution.

Item 8. Supplement Services

Following the recodification, legal review by an attorney of new ordinances can be included in the supplement process as quoted in the Cost Proposal.

Item 9. Subscriber Service Option

Distribution pricing can be added to the MunicodeNEXT online store upon approval. Municode will provide set subscriber costs for the Village to review and can provide a list of active subscribers at any time. Online subscribers will be provided with a link to the store and with contact information to the Municode Distribution Manager. The Village can provide email and mailing addresses for any current subscribers wishing to be added to our online subscription database.

Municode will provide a 25% revenue share to the Village per subscription for outside subscribers on a semiannual basis. The 25% rate will be valid for a 3-year term then subject to evaluation. Subscriber revenue can be applied to future invoices or via direct reimbursement from Municode in check form.

Alternately, the Village can choose to manage subscriptions internally, and we can provide you with the Code and future supplements in PDF format, as quoted in the Cost Proposal. If pamphlets are ordered for outside subscribers, an additional cost is involved to provide pamphlets for internal distribution by the Village.

Any active subscriber will receive a printed supplement based on the printed supplement schedule elected by the Village, as we do not print supplements off-schedule for external subscribers. Subscriber services apply only to printed supplements, not to online electronic updates of the Codes.

Item 10. Pamphlet Options

Pamphlet pricing is available upon request, as it is based on the number of copies desired and the number of pages of the publication. If pamphlets are provided to subscribers, there will be a separate subscription fee from traditional supplements.

Please review the **Recodification Services Summary** below, which outlines Municode's process for the Legal Review of the Municipal Code and Land Development Code, as well as for the delivery of the Legal Memorandum and the final draft of the recodified Code for Village review. We have also provided the scope of services and costs for the future online hosting of the new Code, and for ongoing maintenance of the new Code via the supplement process.

Recodification Services Summary

Ordinances/Policies/Resolutions. All relevant material of a general and permanent nature, passed in final form by you as of the cutoff date established by you and your Municode attorney, will be included in the code. All material that we receive will be acknowledged via e-mail, in order to establish a record of included ordinances. Legislation not of a general and permanent nature will be omitted from the code unless otherwise instructed by you. Notations can be added in the code to reference legislation adopted by reference, if elected.

Attorney Analysis and Review of Material. Your Municode attorney, along with his/her team of legal editors, proofreaders and indexers will be assigned to this project. Our legal team will research all legislation submitted by you against the state statutes of Illinois. The ordinances will also be compared to overall Code content in order to determine if there are any inconsistencies or conflicts within the legislation itself. Ordinances enacted, or added, subsequent to the date of this agreement, or items not contemplated within the scope of service, may be included later at an agreed upon page rate. We will suggest a structure and organization for the code and provide a Table of Contents indicating the recommended structure.

Page Format Options. We will work with you to determine the desired formatting and style of the new code, and will review page composition format options, such as font type, font size, page layout, and graphics appearance and placement with you. We will help you choose a format that produces a professional document that is easily researched.

References. We will provide State Law References within the code. Editorial notes will be provided as appropriate. Internal references within the code will be hyperlinked in the online version.

Legal Memorandum. We will provide you with a user-friendly Legal Memorandum containing all of our analyses and recommendations. This memorandum will reflect our attorney's Legal Review and will provide you with recommended options intended to remove conflicts and inconsistencies; conform to State Law, when appropriate; and ensure compliance with your charter. This approach facilitates collaboration and dissemination among departments, thus making the process as easy for you as possible. Our goal is to make the recodification process simple and smooth for you.

Conference. Within 30 days of your receipt of the Legal Memorandum, we will conduct a conference, either in person or via telephone or webinar, to review the Legal Memorandum and our recommendations. All interested personnel may be included, but your attorney and clerk are essential. Issues discovered during the legal research will be discussed at the conference, with the goal of the conference being to come to agreement on any required changes. Your attorney has the final decision-making authority for resolution of issues brought up at the conference or noted in the Legal Memorandum.

Editing and Proofreading. Our team will edit the text of your code to reflect proper grammar and stylistic consistency. We will not reword any provision that changes the substantive intent of the code, unless you approve the revision. However, non-substantive revisions to improve readability are a part of the process. We will proofread your code. The text will be reviewed for sense and structure and to ensure the implementation of the decisions by your attorney and our attorney.

Index, Graphics and Tables. Our team will create a hierarchical, subject matter Index and all tables (contents, State Law Reference, prior code comparison and ordinance disposition) for your code as necessitated by the materials provided. All graphics provided will be incorporated into the printed and electronic code versions.

Post Conference Code Draft. After editing and proofreading, a post-conference Code Draft incorporating solutions captured in the Legal Memorandum and agreed upon at the legal conference will be delivered to you for final review prior to printing and shipping. We guarantee typographical correctness. Any errors attributable to our team will be corrected at no charge during the term of this agreement.

Adopting Ordinance. Our attorney will provide a sample adopting ordinance upon completion of the recodification.

Printing and Binding (if elected). We will print your new code copies on high quality acid-free paper, with an SFI (Sustainable Forest Initiative) certification. These copies will be housed in heavy duty, 3-post leatherette binders (with 4 color choices) and stamped with the Village's name on the front and spine of each binder. Divider tabs for each major section of the code and index will also be provided.

Implementation and Timelines

The time chart below provides for completion of the recodification project within **10 to 12 months**, excepting any delays occasioned by the Village. Timeline begins upon execution of contract and receipt of all applicable material. Printed supplements can be provided within **30 to 35 days**, and we can provide "always up to date" **electronic update services within 10 to 15 days.** With printed supplementation, the online code is updated within **3 days** of supplement completion. Chapter and pamphlet reprint timeframes depend on the amount of material requested. MunicodeNEXT is password free to the public with no login required. There will be no integration necessary with other Village systems or external software in order to access your online Code via MunicodeNEXT.

SCOPE OF SERVICES – SUPPLEMENT SERVICES

Supplement Services

Our supplementation process has been designed for timeliness, efficiency, simplicity and most of all, for our customers' convenience. All you need to do is to email us your newly enacted legislation, and we do the rest. Printed and/or electronic Supplements can be provided on the schedule of your choice, and in print, Word, PDF and/or Folio formats. There is no additional charge for more (or less) frequent supplementation, A recent analysis of our printed supplement Services indicated an editorial error rate of less than .1%, which is made possible by our attention to detail and strict quality control checks.

We pride ourselves on a turnaround time of **30 to 35 days for printed supplements** and can provide "always up to date" **electronic update services within 10 to 15 days** at the same per page rate as printed supplements. With printed supplementation, the online code is updated within **3 days** after shipping the supplement at no additional cost. We can provide copies of supplements (or the entire code) in either print or electronic format within 3 days of your request (unless a supplement is currently in process), not including any shipment time needed for printed copies. The printed supplement process is outlined below:

- 1. Receipt of new legislation will be acknowledged within 24 hours. Our production support team will record the adoption date, effective date and ordinance number(s) and ensure that all necessary exhibits, tables and graphics are included. You will be advised promptly if any pertinent information is missing from your submission. Your material will then be immediately forwarded to our Supplement team for codification. If our OrdBank service (advance legislation service) is selected, the legislation will be posted online within 48 hours in PDF format as "Adopted Legislation not yet Codified".
- 2. Editorial Review Our editorial team will review all material submitted to determine whether the material should be included in your code; where it should be placed; whether it conflicts with existing code content; what material should be removed; whether history notes should be added; what tables will be updated and whether the Table of Contents in the front or at the Chapter/Title level should be amended. If any significant issues are noted, we will contact you for clarification. No substantive changes to your legislation will be made, however minor typographical errors will be corrected as needed. Any questions or inconsistencies will be brought to your attention.
- 3. Indexing –Our indexing team will index and cross-reference new material in all appropriate locations.
- 4. Proofreading The proofreader assigned to your editorial team will examine your supplement line by line to ensure editorial accuracy, code hierarchy and layout and to confirm that it is grammatically correct and free of errors in spelling and capitalization. Your supplement is examined
 - again, line by line to ensure that the improvements made were thorough and accurate. During this process, the original ordinance is compared again with the newly added text to further ensure editorial accuracy.
- 5. Posting the supplement online (MunicodeNEXT) Your online code will be updated within 1 to 2 days of shipping or uploading the supplement. You will be notified via email that the website has been updated. If our CodeBank Compare + eNotify service is selected, citizens will be notified each time the online code is updated. When your code is updated on MunicodeNEXT, all internal cross-reference links are updated. With our OrdBank feature, each history note will be linked to the ordinance that amended the respective section.
- 6. Printing and Shipping We will print, cut, 3 hole-punch, insert divider tabs and ship your supplement to you quarterly unless otherwise instructed. You can change your supplement schedule at any time, and there is no additional charge for more frequent supplementation. *Instruction Sheet:* With each printed supplement, we will furnish a page of instructions for removal of the obsolete pages and insertion of the new pages; as well as a *Checklist* of up-to-date pages with each supplement.

SCOPE OF SERVICES - ONLINE CODE HOSTING SERVICES

Online Code Hosting (MunicodeNEXT)

Our code hosting platform, MunicodeNEXT (https://library.municode.com) was created and is continuously enhanced and improved by our in-house team of Internet Technology professionals. MunicodeNEXT includes Standard and Premium features (see *Attachment A*), all of which are designed to provide a wide variety of additional capabilities for the research and navigation of your code, as well as for preserving its history. Our newest free online feature, *Public Notes*, will enable you to add external links within the contents of your online Codes (such as links to Zoning maps, Fee Schedules, Council Meetings, the Clerk's office, etc.) or to post public notes or documents in the online Codes to inform your citizens about current issues pertinent to specific sections of your Code.

MunicodeNEXT is extremely user-friendly and requires no special training or login information. A variety of video tutorials are offered, and we can host a personalized training webinar for you and your staff to demonstrate our online features and capabilities before your new Code goes "live" online. Our MuniDocs feature enables you to upload related documents online alongside the Code in fully searchable format. Electronic viewing statistics are available upon request on the schedule of your choice. Our MuniPro feature provides the ability to search over 3,700 online Codes in our library, save frequently used or complex searches, create notes to attach to any publication and draft new ordinances.

Our powerful search engine allows users to enter simple or advanced searches and supports Boolean operators, stemming, wildcards, proximity searches, and a global synonym list. Users can easily search the code using keywords or phrases, and can print, download and/or email any portion of your code. Search terms can be applied to the entire code or narrowed to search only within specific chapters or sections. Our recent website upgrade allows users to sort results by relevance or book order! Our collapsible Table of Contents, continuous next-hit feature and internal and external hyperlinking and cross-referencing features simplify and enhance the navigation of your online code, allowing your staff and citizens the capability of simultaneously searching your code, ordinances, minutes, resolutions, budgets and more.

With MunicodeNEXT advanced features, your staff and citizens need only click the link provided on your municipality's website to access your full Code of Ordinances. They not only have access to your complete and current Code of Ordinances, but to all archived versions of your code, every official copy of your ordinances, the power to compare versions of your code over time, the ability to be notified every time your code is updated, and the ability to translate your code into over 100 languages via *Google Translate*, which is included at no additional charge.

MunicodeNEXT is designed with accessibility in mind. Our application is fully responsive, ensuring all features are available on appropriately sized desktop, tablet, and smartphone viewports. Designed to provide easy access and an intuitive interface, it is extremely well-suited for use on tablets and mobile devices running iOS or Android. With delivery available in Word, PDF or Folio format, the Code can be viewed and researched offline.

The User Interface and all HTML content viewed via our MunicodeNEXT web application is WCAG 2.1 Level AA compliant. While we take several steps to improve the accessibility of PDF documents uploaded to the MunicodeNEXT platform, we cannot guarantee full ADA compliance of PDF documents. If a fully ADA compliant PDF document is uploaded to our MunicodeNEXT platform, it will remain compliant while stored in our system. For each PDF document that is uploaded to our platform, we OCR scanned PDFs; set document title, primary language, and other PDF metadata fields; and automatically create a base level of tags to be used by screen readers.

Our tech stack includes HTML5 & CSS3, Javascript (AngularJS), and a RESTful API written in C# running on .Net Core. All content is rendered in standard HTML and is viewable in all modern browsers including PC: Microsoft Internet Explorer 10 or later, Firefox 3.6 or later, macOS®: Safari™ 5.0 or later, and Chrome 18 or later. We host MunicodeNEXT in Microsoft's Azure Government secure cloud environment and guarantee an SLA of 99.95% uptime. SSL encryption is used by default to secure access to the site and the entire platform is backed up to multiple geographic locations within the Azure Government cloud ecosystem.

- ★ <u>OrdLink</u> will create highlights within your online code to help users identify what amendatory ordinances have been recently adopted and what code sections have been amended.
- ★ <u>MuniPRO</u> allows you to search over 3,700 codes in the Municode library, save frequently used or complex searches, create notes to attach to any publication and draft new ordinances.

Uploading is as simple as dragging and dropping the document from your computer into the upload dialog box on the improved administrator dashboard, where previously uploaded documents can also be managed. When uploaded, users can choose from a wide list of predefined document types, including minutes, agendas, resolutions and more. These documents are immediately converted to PDF and indexed for search, organized in nested folders allowing the public to browse and search them immediately.

MunicodeNEXT Standard & Premium Features

Responsive Design – Our team designed MunicodeNEXT to function on any device. Over 20% of our traffic is generated from a smartphone or tablet. Our user interface, based on Google's Material Design guidelines, ensures any device that accesses our application will have access to our full suite of features.

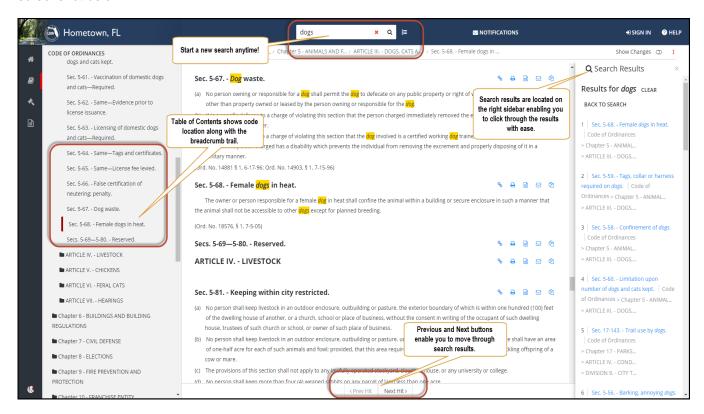

Mobile and Tablet friendly – Our application uses touch friendly icons, easy to access menus, and fly overs to expose all functionality while maintaining a clean, intuitive interface.

Print/Save/Email – Users can print, save (as WORD) or email files at the section level, as well as at the article or chapter level. You can print, save or email non-sequential sections from multiple portions of your Code(s). Not all codification companies enable you to download WORD documents directly from the website. Being able to do so greatly enhances your ability to draft new legislation.

Searching – Municode leverages a powerful open source search platform that also power sites such as Stackexchange, Github, and Wikipedia. Search starts on a dedicated page, then moves to a persistent right-hand sidebar as you cycle through the results. This enables you to quickly move through search results without clicking "back" to a search results page. The Code is also indexed by the section, returning more accurate, granular results. Search results can be sorted by relevance or book order as seen in the screenshot below.

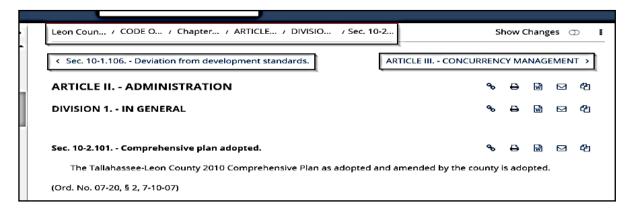

Municode Search Components:

- ★ Advanced Searching You and your power users can conduct searches using Natural Language (think Google) or Boolean Logic.
- ★ Multiple Publications If you have multiple publications (Code, zoning, etc.), they will all be searchable from one interface.
- ★ Searchable ordinances With our OrdBank service, ordinances posted pre and post-codification are full-text searchable.
- ★ Searching all content types If you use our OrdBank or MuniDocs service, you can search any combination of the Code, ordinances, and MuniDocs simultaneously. Search results are labeled for easy identification.
- ★ Narrow Searching Your users could search selected chapters or titles in order to pinpoint their searches and find what they are looking for as quickly as possible!
- ★ Stored Searching MunicodeNEXT allows all search result listings to be bookmarked under your browser's bookmark tabs. Users need only conduct a search and press Ctrl+D to add the search result listing to your browser's tabs.

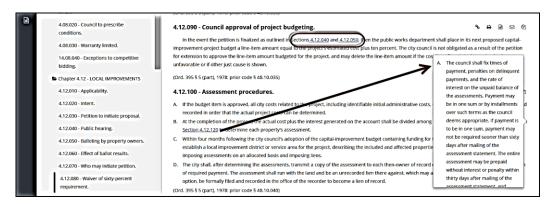

Search enhancements provided with our latest website upgrade include (see screenshot above):

Browsing – MunicodeNEXT provides a persistent breadcrumb trail when browsing or searching and a Previous/Next button at the top and bottom of any document you're viewing. The table of contents and content pane also stay in sync as you scroll to deliver the most intuitive reading experience possible.

- ★ Internal Cross-Reference Linking Cross-references within your Code are linked to their respective destination Article, Chapter or Section.
- ★ Collapsible TOC The table of contents collapses, providing additional real estate with which you may view your Code. Easily view your maps, graphs and charts by simply enlarging the item.
- ★ Mouseover (cluetips) Navigate to your Code and any linked cross-reference will quickly display in the pop-up preview window.
- ★ Google Translate includes the Google Translate plugin, allowing users to view and navigate our hosted Codes in over 100+ languages.

(Cross-reference linking and mouseover shown below)

Translation – MunicodeNEXT includes the Google Translate plugin, allowing users to view and navigate our hosted Codes in over 100+ languages.

Social Media Sharing – You and your users are able to share Code sections via Facebook and Twitter. This will make it easier for you and your team to utilize social media in order to engage your citizenry and enhance your level of transparency.

Static Linking - Copy links of any section, chapter or title to share via email or social media.

Scrolling Tables and Charts – Headers stay fixed while you scroll through the table/chart.

GIS – We can provide a permalink to any Code section and assist staff to create a link from your GIS system to relevant Code sections.

In-line Images & PDFs – We take great care to ensure that your images match online and in print and are captured at the highest quality possible. Our online graphics can be enlarged by hiding the table of contents to maximize the image. Municode can also incorporate PDFs of certain portions of the Code that have very specific viewing and layout requirements.

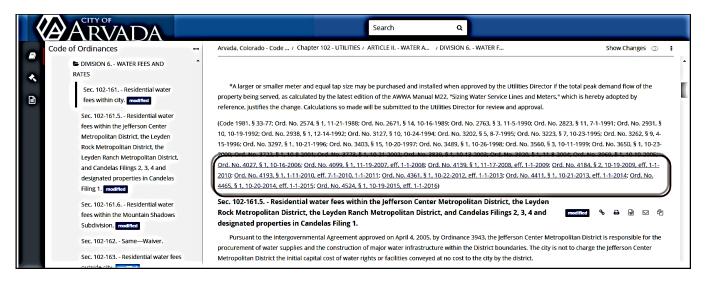

Website Accessibility – Our current website complies with level A of the Web Content Accessibility Guidelines (WCAG) 2.0.

Support – Phone, email and web support for citizens and staff: 24-hour email response; phone support from 8:00 a.m. to 8:00 p.m. (Eastern). A variety of video tutorials are offered, and we are always available to host a personalized webinar for you and your staff to demonstrate our online features.

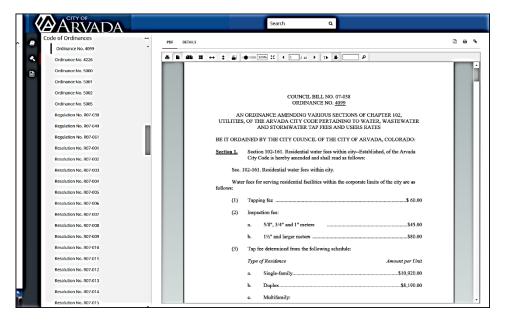

Custom Banner. We can customize the look and feel of your Code to more closely match your website. Please note the custom banners in each of the screenshots provided in this sample.

OrdBank. With our OrdBank solution, newly adopted legislation will be posted online in between supplements. Upon the completion of your supplement, the ordinances will be linked in your history notes and stored in your OrdBank Repository under the "OrdBank" tab.

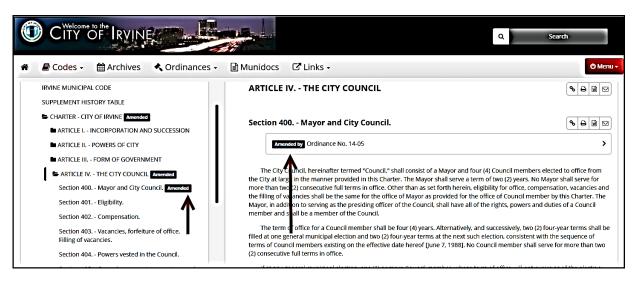

Hyperlinked ordinance in text)

(One-Click access to the original ordinance in the OrdBank Repository)

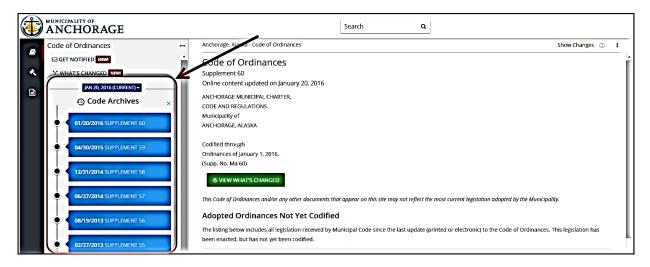

OrdLink + OrdBank. Prior to incorporating the ordinances into your Code via supplementation, the OrdLink feature can hyperlink newly adopted ordinances to the section being amended. Linked sections are highlighted in the table of contents and links are created from the amended sections to the new ordinances. Once the linked ordinances are incorporated into your Code, they are added to your OrdBank repository and hyperlinked to your history notes. This service lets everyone know that new ordinances have been adopted.

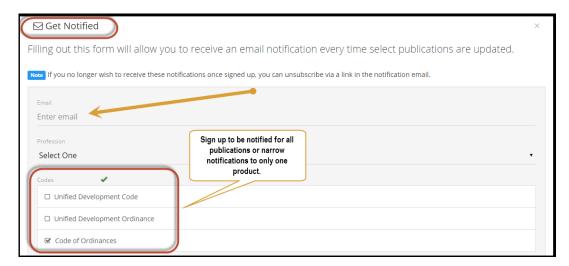

CodeBank. Our CodeBank feature provides an online archival platform for previous supplements of your Code. Empower your staff and citizens to access every previous version of your Code with one click.

(CodeBank Tab)

CodeBank Compare. Our CodeBank Compare service is a powerful feature that provides users the ability to select a past version of your online Code and compare it to any other version of your online Code. The differences will be shown via highlights (added material) or strikethrough (deleted material). The CodeBank feature is required in order to access CodeBank Compare. Users will be notified of the changes in the table of contents and within the text of the Code via "modified," "new" or "removed" badges. Users can also select an option to view all of the changes in a single view, complete with strikethrough and highlights showing the specific textual changes that were made. The CodeBank Compare service will show all amendments to your Code that were implemented during the most recent update. eNotify. Our eNotify service allows users to enroll online and receive email notifications each time your online Code is updated.

This will empower your staff and citizens to receive instant notifications every time your online Code is updated. The CodeBank Compare feature is required in order to utilize the eNotify service.

Compare enhancements provided with our latest website upgrade include the ability to show changes in every version of the Code stored in CodeBank.

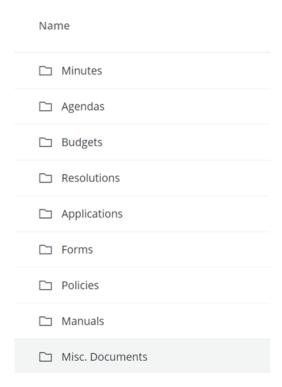

(Changes are shown in your Text Changes Tab and in your Table of Contents)

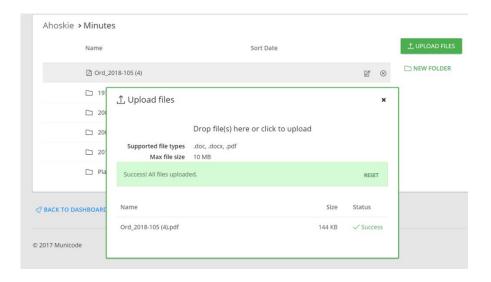

(Show changes button and a custom banner are shown below)

MuniDocs. MuniDocs Upload allows you to upload many types of documents to browse and search alongside your online code and is fully searchable and filterable. After users login, they are presented with a dashboard that allows them to upload new documents and manage previously uploaded documents. When uploaded, users are able to pick from a list of predefined document types

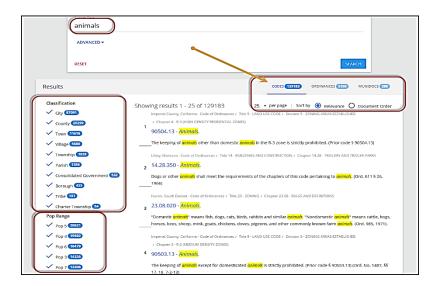

Uploading a document is as simple as dragging and dropping the document from your computer into the upload dialog box on the admin dashboard. Uploaded documents are immediately converted to PDF and indexed for search. Users may upload .rtf, .doc, .docx, and .pdf documents and organize these documents by nested folders. The public can then browse and search these documents immediately.

Premium Features of MunicodeNEXT

If the IP based model is selected, only Multiple Code Searching is available. MuniPRO provides subscribers with the following tools:

General Aggregate Limit - Per Project Endorsement

This endorsement modifies insurance provided under the following:

COMMERCIAL GENERAL LIABILITY COVERAGE PART

It is understood and agreed as follows:

- For each single construction or service project away from premises the Named Insured owns or rents, a separate Project General Aggregate Limit, equal to the amount of the General Aggregate Limit shown in the Declarations, is the most the insurer will pay for the sum of:
 - A. all damages under Coverage A, except damages because of bodily injury or property damage included in the products-completed operations hazard; and
 - B. all medical expenses under Coverage C;

that arise from occurrences or accidents which can be attributed solely to ongoing operations at that project. Such payments shall not reduce the General Aggregate Limit shown in the Declarations, nor the Project General Aggregate Limit applicable to any other project.

B. All:

- A. damages under Coverage B, regardless of the number of locations or projects involved;
- B. damages under Coverage A, caused by occurrences which cannot be attributed solely to ongoing operations at a single project, except damages because of bodily injury or property damage included in the productscompleted operations hazard; and
- C. medical expenses under Coverage C, caused by accidents which cannot be attributed solely to ongoing operations at a single project,

will reduce the General Aggregate Limit shown in the Declarations.

- III. The limits shown in the Declarations for Each Occurrence, for Damage To Premises Rented To You and for Medical Expense continue to apply, but will be subject to either the Project General Aggregate Limit or the General Aggregate Limit shown in the Declarations, depending on whether the occurrence can be attributed solely to ongoing operations at a particular project.
- IV. When coverage for liability arising out of the products-completed operations hazard is provided, any payments for damages because of bodily injury or property damage included in the products-completed operations hazard will reduce the Products-Completed Operations Aggregate Limit shown in the Declarations, regardless of the number of projects involved.
- V. If a single construction or service project away from premises owned by or rented to the Named Insured has been abandoned and then restarted, or if the authorized contracting parties deviate from plans, blueprints, designs, specifications or timetables, such project will still be deemed to be the same project.
- VI. The provisions of LIMITS OF INSURANCE not otherwise modified by this endorsement shall continue to apply as stipulated.

All other terms and conditions of the Policy remain unchanged.
