Title
ComEd Energy Efficiency Program - Presentation

History

The Village of Orland Park participated in the ComEd Energy Efficiency Program which offered incentives to reduce energy and maintenance costs by upgrading a portion of the Village's streetlights to energy-efficient LEDs. The ComEd Energy Efficiency Program provides an incentive of 70 cents per watt reduced for converting streetlights owned by municipalities and other public entities to LEDs. ComEd External Affairs Manager Lisa Aprati will present information on the energy efficiency incentive to the Village of Orland Park Mayor and Board of Trustees.
