DETAILED PLANNING DISCUSSION

The following is a short summary of the proposed amendments.

Outdoor Dining Regulations

This update is intended to make consistent our outdoor dining regulations across all sections of the LDC and Village Code, as well as modify the requirements for fencing to be less strict and add more options to delineate the boundaries around those areas.

The key modifications include:

1. Allow for fences, walls, landscaping or similar barriers to delineate at least 50% of the dining area; and
2. Change the minimum height from 42 inches to 24 inches and set the maximum height at 48 inches.

Offsite Vehicle Storage

The purpose of this modification is to allow car dealerships located within the Village's General Business District (BIZ) the opportunity to maintain off-site storage of their inventory in the Manufacturing District (MFG). The existing regulations for outside storage, such as screening, will remain applicable. In addition, it is recommended that review and approve this use be done via the Appearance Review process since it is contemplated that some of this activity will be temporary in nature based upon seasonal inventory cycles.

The associated conditions include:

1. The vehicle storage area shall not be open to the public;
2. No signage shall be allowed that advertises the BIZ General Business District business

establishment or contents of the vehicle storage area; and

3. No vehicle sales, rental, or leasing shall take place on the premises.
