- 3) Submit a final landscape plan for separate review and approval within 60 days of final engineering approval.
- 4) Meet all final engineering and building code related items.
- 5) Relocate sidewalk, irrigation and lighting infrastructure as well as existing trees along the south property line belonging to the Condo building to an appropriate location on the Condo property.
- 6) Install a black iron ornamental metal fence along the south property line to separate the Condo property from the townhouse development.
- 7) Submit a Record Plat of Subdivision to the Village for review, approval and recording.
