Title
Community Wide Survey - Presentation

History

National Research Center, Inc. representative, Erin Caldwell, will present the key findings from the village's 2016 National Citizen Survey. In the beginning of February, surveys were sent out to a random sample of 1,600 households throughout the village. This is the third time the village has conducted these community-wide surveys. Survey studies were also conducted in 2012 and 2014.
