Title

Centennial Park Aquatic Center - Pool Pump Quote

History

The existing pump is nine (9) years old and does not operate within the standard efficiency levels. Due to the age and condition of the pump which has been losing pressure and not working efficiently, staff requested quotes from various vendors.

Three (3) quotes were received for the new T-Pool pump which include:

| | |
|---------------------------|------------|
| Thomas Pump Company, Inc. | \$5,525.00 |
| Borg Generals Sales, LLC | \$5,925.00 |
| Mack Pump & Equipment Co. | \$7,290.00 |

Staff recommends purchasing from the lowest qualifying quote by Thomas Pump Company, Inc. of Aurora, IL.

The removal of the old pump and installation of the new pump will be performed by staff.

On March 16, 2015, this item was reviewed by the Parks & Recreation Committee, recommended for approval and referred to the Village Board of Trustees for consideration.

Financial Impact

The funds for this purchase will come from the Pool account (283-4005-443150). The amount budgeted is \$36,000.00. The remaining funds budgeted will be used to repair the existing pumps at the pool.

Recommended Action/Motion

I move to approve the purchase of the new pool pump from Thomas Pump Company, Inc. at a cost not to exceed \$5,525.00.
