### Title

Approval of Occupational Health Service Provider

### History

Midwest Center for Environmental Medicine provides Occupational Health Services (MCEM) including pre-employment exams, other employee medical exams and serves as the collection site for the drug and alcohol testing.

The Village and MCEM have a long standing positive working relationship which includes competitive rates for exams and collection services which have remained unchanged for many years. Dr. Terrence Moisan the MCEM physician is a graduate of Loyola University Stritch School of Medicine and is Board certified in Internal Medicine, Pulmonary Disease, and Occupational Medicine. He is experienced with municipalities, including police and fire, and is certified to complete DOT medical exams as well FAA exams for pilots. In addition his staff is very professional and accommodating in coordinating impromptu exams as well as coordinating an on-site drug screening for our pool staff.

On February 3, 2014, this item was reviewed by the Finance and Information Technology Committee, recommended for approval and referred to the Village Board of Trustees for consideration.

### Financial Impact

The following expenditure is expected for MCEM, adequate funds have been included in the FY14 budget to support this expenditure. \$26,362.00 is budgeted and costs are based on actual utilization.

### Recommended Action/Motion

I move to approve Midwest Center for Environmental Medicine to provide Occupational Health Services.
