Title

History

In 2011 the Village established the Basin and Best Practices Management report. The report contains bids and evaluations on Village ponds and areas that require stewardship to ensure proper functionality and aesthetics of said areas. Since the completion of the report, the Village has worked with contractors to perform the required services. The selected companies were chosen based on price and expertise in the area of ecological restoration. V3 is one of the companies that were awarded basin and restoration work. V3 has proven to be extremely knowledgeable in this area of work and have provided exemplary service to the Village on high profile pond and natural area projects. V3 currently provides stewardship of The Village Hall North Pond. V3 has provided superior expertise and service, greatly improving the functionality and appearance of the natural plantings at the aforementioned properties.
