OVERVIEW AND BACKGROUND

In 2010, the Board of Trustees adopted the policies titled, "Co-Locating Wireless Communication Facilities on Village-Owned Property" (2009-0288). The policy includes six components related to: screening ground equipment cabinet enclosures; if required landscaping screening cannot be accommodated, fees will be paid to the Village's Tree Mitigation Bank in lieu of the required landscaping; ground equipment shelter screening requirements; assessment for multiple tenants or co-locations on the infrastructure; one-time maintenance fee and site access; and compensation to the Village on a quarterly basis that will follow a pre-determined fee schedule. The petitioner has met all the conditions of the above 2010 wireless communication facilities policy.

PROJECT DESCRIPTION & CONTEXT

This petitioner requests the following modifications:

1) Waiving installation of landscaping screening in favor of paying the fee of \$2,500 in lieu of it.

Overall, the project conforms to the Village's Comprehensive Plan, Land Development Codes and policies for this area.

Additional details about the project are discussed in the Plan Commission report, which is attached for reference.

The plans and drawings for this project have been provided in hard copy only.
