Title

Elevated Tank #5 Rehabilitation Construction Engineering - Proposal

History

In September 2019, the Village Board approved the rehabilitation of Elevated Tank No. 5 (Tank 5) with work to begin in the spring of 2020. Contracted for Phase 1 and 2 engineering services, Strand Associates of Joliet, Illinois provided a thorough evaluation of the tank, noting deficiencies and recommendations for improving the rehabilitation of the elevated tank.

Staff requested a proposal for Phase 3 engineering services from Strand Associates to provide limited construction oversight, administrative services, preparation of change orders (to insure contractor conformance to the contract documents), and to communicate with third party cellular providers.

Financial Impact

Funds for this project are available in the Water Fund budget 031-6002-443900.

Recommended Action/Motion

I move to approve accepting the proposal from Strand and Associates of Joliet, Illinois for Elevated Tank #5 Rehabilitation Construction Engineering Services for an amount not to exceed \$22,900.00.
